

Special Offer from CMW Ltd

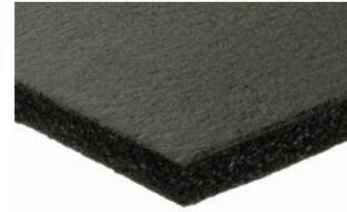

LSOH Algar Floor Matting

Class B1
Halogen Free & Low Smoke

13mm & 25mm thick

Ideal for data cables
and easy to install.

- Flexible, lightweight closed cell rubber matting
- Class 'O' fire category and B1
- Resists moisture from screeded floors
- Ideal for laying beneath raised floors
- Many other sizes available to order
- Meets both UK and European standards

Algar matting is ideal for laying beneath raised flooring with its main purpose being to protect data cables. Algar matting can be laid straight onto a screeded floor and any irregularities will be absorbed by its 13mm / 25mm depth. Below are some examples of our matting in-situ.
