

μOTP microtp

The fiber optic closure FOCUS-μOTP is an hermetic product for splicing and termination developed by Optotec for underground applications (manholes, chambers ...), aerial network (pole, facade ...) and integrated applications (cabinet, pedestal ...).

The product can be installed either in-line and/or butt configuration where easy access is crucial and rapid activation of customers is required.

The μOTP is part of Optotec compact closure family and can fully meet the technical and performance requirements in the distribution of FTTP networks.

All versions have a simple and practical fiber management system that combines the functions of splicing, termination and integration of passive components.

The product complies with EN-50411-2-10 - Fibre organisers and closures to be used in optical fiber communication systems - Product specifications - Part 2-10: Sealed fiber splice closures type 2, category G, for FTTH optical distribution networks.

The version of the FOCUS-μOTP allows the connection up to 12 subscribers, a selective access during the re-opening, upgrading and maintenance without any interference on active circuits. The control on the fiber routing is total with a minimum bending radius of 30mm in the whole system.

APPLICATIONS

FTTP and FTTH networks
 Aerial, pedestal, underground environment
 In-line - Butt - Tap-off configuration

MAX DIM. IN MM

Width	Height	Depth
155	240	65

KEY FEATURES AND BENEFITS

All fibres G652 and G657 fibre compatible	Positive fibre management - respected min. bend radius
Termination closure for up to 12 subscribers 12 splice (Fiberterm or Fiberclip) 12 adapters SC	High reliability - IP68 and IK10
SIZE ≤ 2liters	Latch closing system - friendly use - tool less - easy to install
Main cable entry 4-16 mm - Drop cable sealing 4-6 mm	Operating temperature -40°C up to +70°C
Standard configuration Cables in/out - 2 feeders + 18 drops	ROHS and ECO friendly

OPTOTEC PN	REFERENCE PN	DESCRIPTION
2503120	FOCUS-MICROTP-BASIC-GY	Focus MICROTP with 1 trays, for 12 splices standard shrinkable (Fiberterm) + 2 blind gaskets, 2 feeder gaskets + 4 gaskets with 3 hole (or 6) - Grey version
2503121	FOCUS-MICROTP-BASIC-BY	Focus MICROTP with 1 trays, for 12 splices standard shrinkable (Fiberterm) + 2 blind gaskets, 2 feeder gaskets + 4 gaskets with 3 hole (or 6) - Black version
