NAC-8007UC
USB CARD ISSUING DESKTOP
ENROLLMENT READER
User Manual

The Secnor NAC–8007UC has the functionality of transmitting the data from the reader to PC via USB Port making card enrolment easy and efficient. The user does not require to download any driver program as it will be automatically installed in Windows. The power is supplying through the USB so no additional power source is required.

Installation Steps:

1. Unbox the device.
2. Connect USB cable to PC.
3. Drivers will be automatically installed.
