

STERLING CURVE

**A sleek and stylishly curved
three compartment trunking
for skirting or dado
instalations**

Sterling Curve has a gently contoured profile that stops clutter, avoids dust traps and makes cleaning easy. Suitable for dado & skirting use, the three compartment 167 x 50mm system includes single piece moulded fittings and flat tees/angles with integral bend radius control.

- Compliant up to Cat 7a
- Standard bend radius 25mm
- Adjustable data box 32-40mm
- Screened data boxes
- Steel screening divider available
- Boxes available to comply with Part M
- Data fittings for bend radius up to 50mm
- Profile 1 available with BIO properties within the PVC-U material to deliver ongoing antimicrobial protection
