 **REASSURINGLY  
RECYCLED**

UK OWNED  
UK MANUFACTURER

Page 15

### PVC-U perimeter trunking systems

Multi-compartment dado and skirting trunking in different heights, designs and cable capacities to suit all installation requirements.

---

Page 37

### Mini and Maxi trunking

A range of mini and maxi trunking options for a variety of installations.

---

Page 45

### Accessory boxes, plates and enclosures

A full range of boxes, plates and enclosures for trunking and conduit systems.

---

Page 51

### PVC-U conduit and channel

Round and oval PVC-U conduit, channel and fittings

---

Page 57

### Bendex cable management

An economical, affordably priced range including PVC-U trunking, conduit, cable protection guard, channelling and accessory boxes.

---

Page 71

### Aluminium trunking systems

Multi-compartment dado, skirting and bench trunking, for installations where a mechanically robust trunking and high quality of screening performance is required.

---

Page 83

### Steel trunking systems

Multi-compartment dado and skirting systems with first class fire performance and excellent screening capability.

---

Page 89

### Tufflex Tile

A quick and easy pattress solution that takes the hassle out of traditional ceiling installations.

---

Page 91

### MT Supertube

An LSOH, three layer, heavy gauge conduit offering considerable installation time savings.

---

## PowerPoles and PowerPosts

Elegant solutions for managing services to island work stations.

Page 95

## Underfloor to desk solutions

A range of products that provide complete power and data solutions from under the floor up to the desk.

Page 99

## GRP ladder and tray

Light weight and easy to install alternatives to steel ladder, tray, duct and basket.

Page 111

## Wire Basket

A comprehensive range of wire basket solutions for the simple routing of power and data cables.

Page 125

## Metal cable tray

Ideal for the support of power and data cables in commercial and industrial installations.

Page 135

## PVC cable tray

A lightweight support system for the routing of power and data cables ideally suited to outdoor environments.

Page 141

### Order online

Account holders can place stock orders quickly and easily online via a unique login with customised terms and pricing built in. Contact our customer services team to set up an online login (this service is available to UK customers only).

### Look for these symbols within the catalogue

Indicates that a product is compliant up to a specific cable category.

Indicates that the system is manufactured with antimicrobial material, and is stocked.

Indicates the percentage of recycled PVC-U that is used in the manufacture of the specific product range.

# CABLE MANAGEMENT SPECIALISTS

Marshall-Tufflex is the UK's leading manufacturer and supplier of cable management solutions for commercial, industrial, healthcare, education and domestic markets.

Based in Hastings, East Sussex the company was established in 1942 and is recognised throughout the industry for quality, consistency, reliability, value for money and innovation.

We are extremely proud of our heritage as a family owned company and our priority for the future is to re-invest and continue producing new and effective solutions for the building industry.

### REASSURINGLY RECYCLED

We work hard to ensure our products meet the highest standards and are totally committed to the environment and maximising our usage of recycled plastic within our manufacturing process.

From January 1st to 31st December 2020 we used 74% recycled material across our PVC-U product range.

## Charitable donations

Marshall-Tufflex is an established supporter of charity, donating almost half a million pounds over the last five years alone.

Our philanthropic spirit is part of our heritage and ingrained into the culture and we are very proud to support local and national charities through regular staff fundraising efforts and company donations.

In 1962 our Company founder Harold Cirket, established a charitable trust, the Charlotte Marshall Charitable Trust, which the company still supports today through a mix of dividend payments and donations.

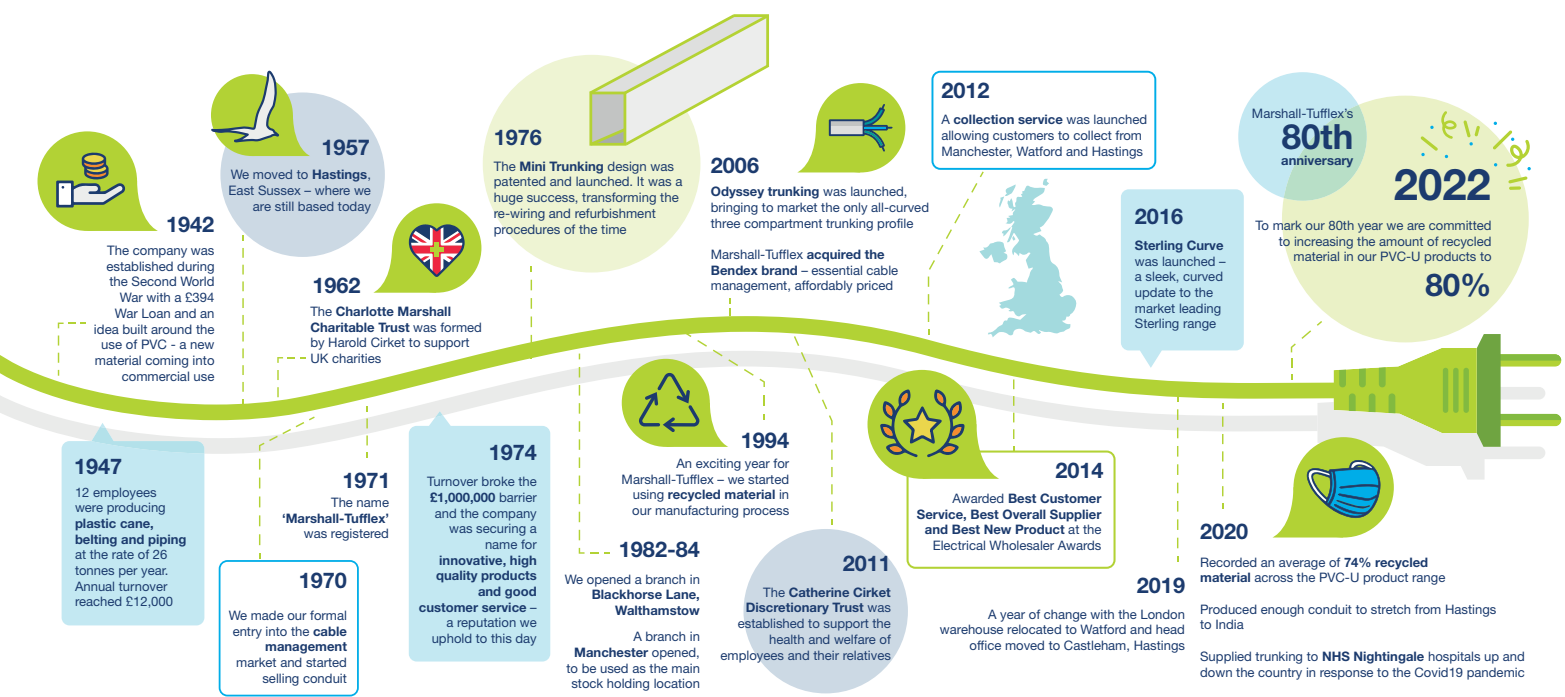

# CELEBRATING 80 YEARS

## Celebrating 80 Years

We've come a long way since our wartime beginnings when the company was born with a £394 War Loan and an idea built around the use of PVC, a new material just coming into commercial use.

For eight decades, we have pioneered plastic extrusion and become market leader in the cable management industry.

## First class customer service

Our Area Sales Managers, Specification Managers and technical specialists work closely with consultants, contractors and clients in order to provide the best possible technical and sales support.

Our Customer Service Team are on hand to advise on stock availability, lead times, delivery schedules and order fulfilment.

Our office opening hours are 8:30am to 5:00pm Monday to Friday.

## Buying Marshall-Tufflex products

Marshall-Tufflex products are available throughout the UK via a large network of national and independent electrical wholesalers.

Please contact our Customer Service Team on +44 (0)1424 856600 for details of your local UK stockist or visit [www.marshall-tufflex.com](http://www.marshall-tufflex.com)

Our products are also in over 55 different countries worldwide via our network of channel partners, who maintain a range of products for their customers locally.

## Collection service\*

Our popular collection service gives our UK customers an unrivalled two-hour turnaround on product orders, allowing collection from our dedicated collection point in Manchester. Orders can also be collected next day from our Watford and Hastings depots.

**Manchester:** Europa Trading Estate, *Monday – Friday 8am – 5.30pm*  
Stoneclough Road, Radcliffe,  
Manchester M26 1GG

**Watford:** Unit 4 Trade City, *Monday – Friday 8am – 5.30pm*  
Thomas Sawyer Way, Watford WD18 0EZ

**Hastings:** 55-65 Castleham Road, *Monday – Friday 8am – 5.30pm*  
Hastings TN38 9NU

- Orders can be collected two hours after order placement from Manchester.
- Orders received by 5pm will be ready for collection the following day.
- Orders placed by 12.30pm can be collected from 8am the next day from our Watford and Hastings depots.

\* Subject to stock availability

## Distributor orders

Orders can be placed online or by email with our Customer Services Team. Goods will be delivered on your next scheduled delivery day, subject to availability, providing your order is received before the daily cut-off time of 12.30pm.

### Send your order to us at:

✉ [sales@marshall-tufflex.com](mailto:sales@marshall-tufflex.com)

## Direct to site deliveries

If you need your order delivered directly to site, our Customer Service Team will be happy to arrange this for you.

Carriage charges apply if minimum order value is not met.

## Order online

Account holders can place stock orders quickly and easily online via a unique login with customised terms and pricing built in. Contact our customer services team to set up an online login (this service is available to UK customers only).

# TECHNICAL SUPPORT

Our Technical Team consists of qualified electricians, and technical experts with many years experience of cable management installations including an understanding of the regulations and compliancy to standards.

The team can advise on a wide range of solutions and technical issues, product standards, data cabling control and Part M compliancy.

We aim to complete all standard quotes within one working day, although more complex quotations such as 'take offs' can take longer.

## BIM (Building Information Modelling)

BIM (Building Information Modelling) brings together all of the digital information for every component of a building in one place allowing anyone to access that data. BIM data can be used and shared to illustrate the entire building life-cycle, from feasibility, design, during construction and throughout its working life.

3D Autodesk Revit models are available to download for Marshall-Tufflex products, with the necessary technical product data for them to be easily specified and integrated into a construction project.

Visit [www.marshall-tufflex.com/bim](http://www.marshall-tufflex.com/bim) or [www.thenbs.com](http://www.thenbs.com)

**PRODUCT DATA SHEETS ARE AVAILABLE AS PDF'S ON OUR WEBSITE**  
[www.marshall-tufflex.com](http://www.marshall-tufflex.com)

## Standards

### BSI Standards

Marshall-Tufflex is committed to excellence and is recognised by the BSI as a firm of Assessed Capability for Quality Management Systems to BS EN ISO 9001:2015 and Environmental Management Systems to BS EN ISO 14001:2015.

### RoHS

RoHS (Restriction of Hazardous Substances) restricts the use of specific hazardous materials found in electrical and electronic products. All Marshall-Tufflex products are RoHS compliant.

### WEEE

WEEE is the directive on waste electrical and electronic equipment which sets collection, recycling and recovery targets for all types of electrical goods with the objective of reducing landfill. Marshall-Tufflex is fully compliant with the WEEE directive.

### REACH

REACH is an EU regulation (dating from 18.12.06) that stands for Registration, Evaluation, Authorisation and Restriction of Chemicals. It addresses the production and use of chemical substances and assesses their potential impact on both human health and the environment. All Marshall-Tufflex products are REACH compliant and contain no 'Substance of Very High Concern'.

BEAMA is the independent expert knowledge base for the electrotechnical industry in the UK and across Europe. Representing over 300 manufacturing companies, the organisation has significant influence over UK and international political, standardisation and commercial policy. We are very proud to be an active member of BEAMA.

# NEW PRODUCTS

The Marshall-Tufflex brand is synonymous with providing quality, and innovative engineered solutions. This catalogue features a number of new products which are now available and in stock.

## PVC cable tray

Corrosion resistant cable tray for external environments.

Page 141

## Metal cable tray

Fast coupling, light, medium and heavy duty metal cable tray.

Page 135

## Tufflex Tile

To speed up the installation of electrical products within suspended ceiling installations.

Page 89

## Metal spacer bar saddle

To support cables and prevent premature collapse in the event of a fire.

Page 93

## MT Supertube universal connector

To enable connection from MT Supertube conduit to any manufacturer's boxes and accessories.

Page 93

## Desktop modules

Featuring individually fused UK sockets for desktop access to power, data and USB charging

Page 110

## UK DISTRIBUTOR OF BASOR ELECTRIC PRODUCTS

We are the exclusive distributor of Basor products in the UK and supply Wire Basket, Metal Cable Tray and PVC Cable Tray as part of this agreement. In addition, we can also supply any other Basor products, including those that are not part of the standard range.

**BE Basor**  
CABLE TRAY SPECIALIST

**Bendex** 

### Bendex - essential cable management, affordably priced

The Bendex range of affordably priced cable management solutions are manufactured in the UK by Marshall-Tufflex. The range includes PVC-U trunking, conduit, cable protection guard, channelling, surface boxes and IP rated sockets.

As with the Marshall-Tufflex range, Bendex products are manufactured using a high percentage of recycled PVC-U which varies across the range depending on the product.

See page 57

# DISTRIBUTION ACROSS THE WORLD

INTRODUCTION

## We're easy to do business with

Our international team work with our partners around the world overseeing international shipments from order placement through to final delivery of goods.

All elements of the shipping process are managed by our team including export documentation and payment documents such as letters of credit.

We have exported our range of cable management products across the world for over 45 years.

Our products have been installed in prestigious buildings worldwide and we are pleased to sell to over 55 countries via our network of channel partners.

For details of our channel partners, see the inside back cover of this catalogue.

## REASSURINGLY RECYCLED

The construction industry produces huge amounts of waste each year. At Marshall-Tufflex, we take our impact on the environment very seriously and are working hard to encourage the cable management sector to join us in utilising recycled material within their products by 2028. We believe that everyone has a responsibility to make positive choices that can affect the environment. We all have an impact, no matter how small.

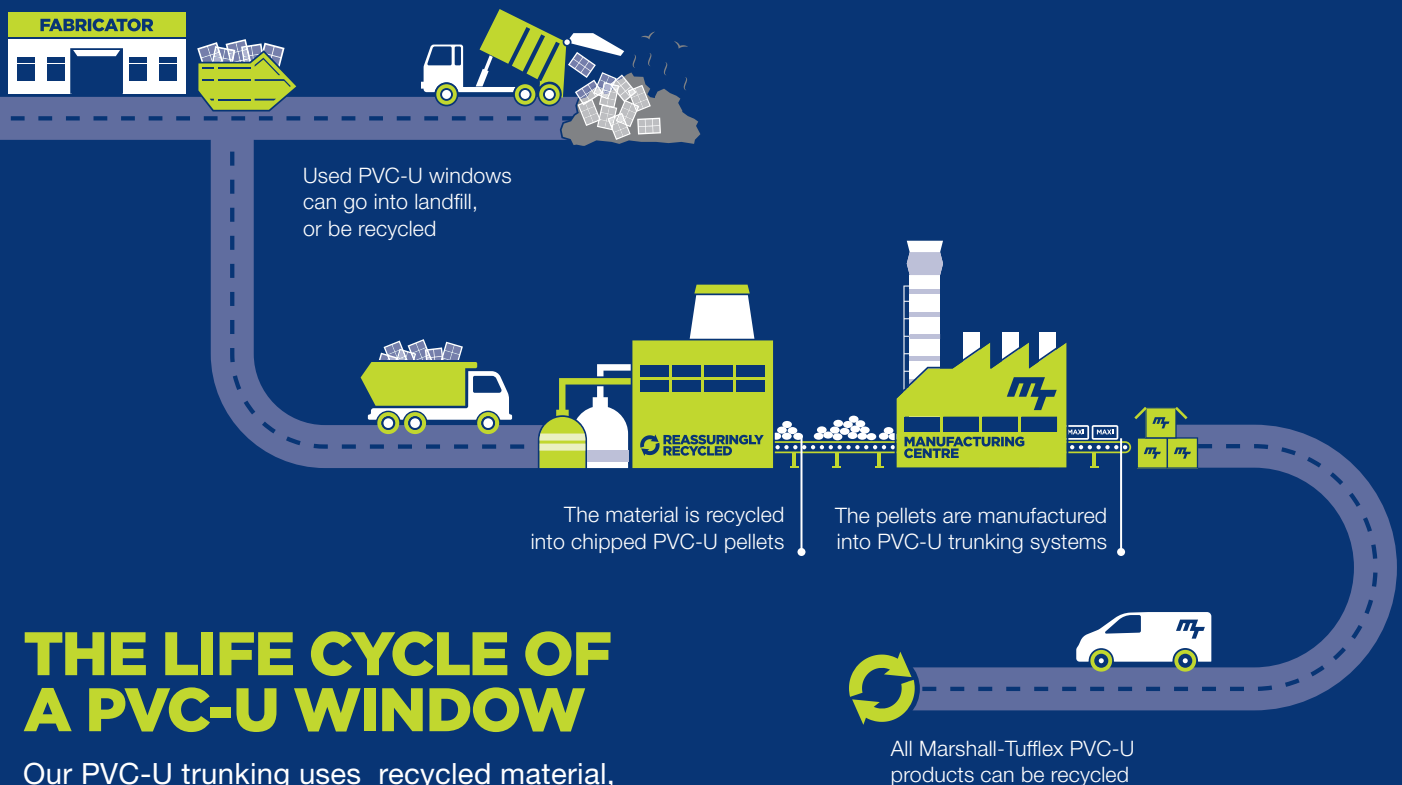

### Where does our recycled material come from?

Our recycled PVC-U mainly comes from post-industrial waste (off-cuts from PVC-U window production) and post-consumer waste (from PVC-U windows removed from buildings at the end of their lives). This raw material is more robust and higher quality than normal conduit or trunking virgin grade extrusion PVC-U because the material used to make windows is designed to withstand external elements and is generally considered the best standard PVC-U available.

**REASSURINGLY RECYCLED**

**FOR OVER 25 YEARS,  
WE HAVE PRODUCED  
TOP-QUALITY CABLE  
MANAGEMENT SOLUTIONS  
USING RECYCLED PVC-U FROM  
WINDOWS.**

## THE LIFE CYCLE OF A PVC-U WINDOW

Our PVC-U trunking uses recycled material, which prevents thousands of tonnes of PVC-U windows going into landfill each year

## 12 | Sustainability

### How much recycled content do we use in our products?

From 1st January to 31st December 2020 we used 74% recycled material across our PVC-U product range. Where the aesthetic finish of products is not so important, far higher percentages of recycled material can be used. For example, some of our white Mini and Maxi trunking lengths, white conduit and trunking base products can be manufactured using up to 100% recycled material.

### Why specify products with recycled content?

With the government's target to meet net zero by 2050, sustainability is a key consideration in all areas of a building's design. With the construction industry generating huge quantities of waste each year, much of which ends up in landfill, it is clear more needs to be done to reduce the amount of waste produced.

We are actively campaigning for all PVC-U cable management products installed in buildings to be manufactured using recycled material. The aim of this initiative is to encourage specifiers to state a minimum of 50% recycled material in specifications where PVC-U products are used. But it doesn't end there, as we are also encouraging installers and wholesalers to ask the question. 'Is this product I'm using or selling made using recycled material?' Serious consideration should be given to the sustainability credentials of the product and if the quality is the same, or better and the price is comparable, product utilising recycled material has to be the best option.

**WE ARE ENCOURAGING SPECIFIERS TO STATE A MINIMUM OF 50% RECYCLED MATERIAL IN SPECIFICATIONS WHERE PVC-U PRODUCTS ARE USED.**

### **WE ARE DRIVING...**

**For all PVC-U products installed in buildings to be manufactured using 50% recycled material by 2028.**

**REASSURINGLY RECYCLED**

## What is the average amount of recycled content for each system?

To enable you to evaluate or compare the average amount of recycled content that is used within our PVC-U systems we have worked out an average based on a built up 3m trunking profile.

**A 3m built up trunking profile consists of 3m of base and 3m of cover/s.**

## Range recycling figures

(Figures based on our production usage from 1/1/20 to 31/12/20)

System	Percentage
White conduit lengths	100%
White mini and maxi trunking lengths	100%
Mono 10 trunking assembly (EPM10WH)	77%
Sterling Compact trunking assembly (EPM20WH)	58%
Sterling Curve Profile 1 trunking assembly(CEP1MWH)	66%
Sterling Curve Profile 2 trunking assembly (CEP2MWH)	60%
Odyssey trunking assembly(DD1WH)	62%
Twin Plus trunking base (EMT60WH)	55%
Cornice trunking (MCT1WH)	100%
Sovereign Plus skirting trunking (JE03WH)	100%
Bench trunking assembly (MBT105WH)	50%
Bendex white conduit lengths	98%
Bendex white mini and maxi trunking lengths	100%
Bendex Challenger System 1 trunking assembly (XT1CWH)	62%
Bendex Challenger System 2 trunking assembly (XT2CWH)	57%

## How do we ensure consistent quality when using recycled content?

To ensure consistent quality across all of our products, we take material samples from the production line every hour to check for consistency in colour and surface finish. This means we can always assure our customers that we are consistently supplying high quality products.

## Company environmental practices

We take the impact of our business very seriously across every level of the organisation. As well as our usage of recycled material in our manufacturing operation we also work hard to recycle anything and everything wherever we can. Currently we recycle paper, cardboard, polythene, wood, metal, print cartridges and aluminium cans. Our pallets are also collected by a local company who use them to build planters for local conservation projects.

Other energy saving initiatives across the company include the installation of LED lighting within our factory and office areas.

All new machinery sourced for manufacturing has a requirement for energy saving to ensure that our products are created in the most efficient way possible with least impact on the environment.

## PACKAGING CHARTER

We are committed to protecting the environment and our approach to packaging plays an important role. We continually look for ways to use environmentally friendly packaging or to minimise packaging whilst ensuring that our product is well protected and delivered in excellent condition.

### Metal stillages

We use metal stillages made from recycled steel to store and transport extruded lengths in bulk.

Typically they remain within our manufacturing and warehousing sites for internal transportation of product. Metal stillages are recycled at end of life.

### Wooden bales

Wooden bales are used as an alternative to stillages when product is supplied to customers in bulk.

The timber we used is FSC approved and can be recycled.

### Wooden pallets

All wooden pallets that we purchase are FSC approved and can be recycled.

### Polythene sleeving

All our polythene sleeving is supplied with a 30% recycled content. Our Polythene can be recycled at end of life.

### Plastic bags

Smaller fittings may be bulk packed in plastic bags, these bags have a 30% recycled material content and are 100% recyclable at end of life.

### Cardboard

Inner boxes - These are made using 100% recycled paper and are 100% recyclable.

Outer boxes - These are made using 70-100% recycled material content and are 100% recyclable.

Cardboard trays – These are made from 100% recycled material and are 100% recyclable.

# PVC-U PERIMETER TRUNKING SYSTEMS

PVC-U perimeter trunking is an ideal solution for the containment of data, communication and power cabling.

PVC-U PERIMETER TRUNKING SYSTEMS

# PVC-U PERIMETER TRUNKING SYSTEMS

Our PVC-U cable containment systems are easy to install, light to handle and cost-effective to use. We have a wide range of solutions in different heights, designs and cable capacities for the distribution of power and data; making it an excellent choice of material for the majority of commercial, education and healthcare environments. PVC-U is a self-extinguishing material and therefore helps to stop the spread of fire.

Our PVC-U products are manufactured using a high percentage of recycled material. During 2020, 74% recycled material was used across the PVC-U range and by the end of 2022 we are aiming to reach 80%.

Reassuringly we have been using recycled material for over 25 years, we take our impact on the environment seriously and are doing our best to minimise our effect.

## The need for change

It's time for the electrical industry to place more emphasis on the origins of the plastic products they use, to help reduce waste and lower the carbon impact of our buildings. The recycling and reuse of materials has an important role to play in lowering the environmental impact of buildings and achieving a net-zero carbon footprint.

## WE ARE DRIVING...

for all PVC-U products installed in buildings to be manufactured using 50% recycled material by 2028

If PVC-U trunking solutions that are made with a minimum of 50% recycled plastic are more commonly specified, then the hope is that other manufacturers, and indeed, the industry, will follow.

### Environmental & sustainability

- We use recycled PVC-U in our manufacturing process, reducing carbon emissions in doing so.
- Research has shown that the use of recycled PVC offers a 20-fold reduction in greenhouse gas (GHG) emissions compared to virgin product.
- 100% recyclable material and has a long life cycle. We encourage our products to be recycled at the end of their useful life.
- PVC-U is a cost-effective, sustainable choice and comparable with other materials such as steel, aluminium, copper and wood.
- Virgin grade PVC-U has the lowest oil content of a commodity plastic.
- No increase in dioxin emission from Municipal Waste Incineration. No phthalates used in manufacture of PVC-U or FR-ABS.
- Lead-free formulations are used for mouldings and extrusions.
- No use of cadmium-based stabilisers or pigments.

### EMI protection

- Steel screening insert option.

### Fire performance

- The fire rating for PVC-U is excellent\* and PVC-U has all the characteristics required for Fire Escape Time.
- Highly resistant to ignition.
- Does little to contribute to the spread of fire and is classified to Building Regs: Class 0.
- PVC-U chars and is self-extinguishing.
- Has a low rate of smoke production during the early stages of a fire.
- Acts as an effective barrier to flame spread from malfunctioning electrical components within systems.
- Does not produce flaming droplets or burning debris.
- ABS fittings fire rated to UL94 V0.

\*see the independent report at [www.beama.org.uk](http://www.beama.org.uk)

## Bio antimicrobial trunking

Where hygiene and stopping the spread of infectious bacteria is a priority, our Bio trunking solutions with integral antimicrobial properties incorporated within the PVC-U deliver ongoing antimicrobial protection that prevents 99.9% of harmful bacteria.

Because the Marshall-Tufflex Bio trunking solution is integral to the PVC-U material, there is no reduction in effectiveness of the trunking throughout its life – even if it is scratched or damaged.

We hold stock of Odyssey and Sterling Curve Profile 1 ranges with Bio antimicrobial protection.

- Prevention of harmful bacteria growth.
- Antimicrobial properties inherently formulated within the PVC-U and ABS compounds.
- Being inherent to the product material formulation the antimicrobial properties will remain effective for the product lifetime.
- Testing to ISO 22196:2011.
- Proven silver ion-based technology to neutralise any bacteria with which it comes into contact.
- Registration with the Environmental Protection Agency (EPA).
- Compliance with the European Biocidal Products Directive (BPD).
- Proven reductions in bacterial viable count by more than 99.9%.
- Antimicrobial treatments provide an extra level of protection when combined with normal cleaning procedures.

Bio trunking can be identified by using a UV light on the external surface of the trunking. The Bio system will reflect blue under UV light rather than violet.

## Part M compliance for visual impairment

Part M of the UK Building Regulations for Visual Impairment requires that face plates differ in colour from their background. Coloured accessory boxes provide a different colour frame to contrast against standard white accessories and are offered as part of our standard product range in blue (RAL5002) and charcoal (RAL7021).

See page 49 of the Accessory Boxes section for details of coloured boxes for use with our trunking systems.

## Standard colour

Marshall-Tufflex trunking systems are available in solid white RAL 9003.

Standard Colours
WH
WH: White

PVC-U multi-compartment perimeter trunking is available in different heights, designs, cable capacities and numbers of compartments to suit all installation requirements. Standard PVC-U products are supplied in white.

**Mono 10**  
**100 x 50mm**  
 Small trunking with a single cover suitable for dado application and as a feeder trunking.

**77%**  
 Mono 10 trunking assembly is manufactured using 77% recycled material

**Odyssey**  
**180 x 57mm**  
 Curved profile dado trunking with one main compartment and two smaller outer compartments.

Also stocked as a Bio antimicrobial version.  
**62%**  
 Odyssey trunking assembly is manufactured using 62% recycled material

**Sterling Compact**  
**140 x 50mm**  
 Dado trunking with three separate compartments and individual covers for each compartment.

**58%**  
 Sterling Compact trunking assembly is manufactured using 58% recycled material

**Twin Plus**  
**210 x 57mm**  
 Large dado and skirting trunking with two deep compartments incorporating segregation of power and data.

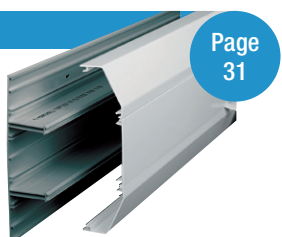

**55%**  
 Twin Plus trunking assembly is manufactured using 55% recycled material

**Sterling Curve Profile 1**  
**167 x 50mm**  
 A curved dado trunking with three segregated compartments.

Also stocked as a Bio antimicrobial version.  
**66%**  
 Sterling P1 trunking assembly is manufactured using 66% recycled material

**XL trunking 201**  
**220 x 65mm**  
 Deep, large capacity three compartment dado system.

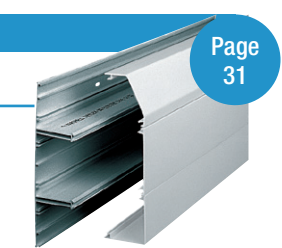

**99%**  
 XL trunking base is manufactured using 99% recycled material

**Sterling Curve Profile 2**  
**167 x 50mm**  
 A curved skirting trunking with three segregated compartments.

**60%**  
 Sterling P2 trunking assembly is manufactured using 60% recycled material

**XL trunking 202**  
**220 x 65mm**  
 Deep, large capacity three compartment skirting system.

**99%**  
 XL trunking base is manufactured using 99% recycled material

PVC-U PERIMETER TRUNKING SYSTEMS

## Specialised Trunking Systems

### Cornice

50 x 50mm

A cornice containment system for distributing services around ceiling perimeters. This system can be used with Mini Trunking to supply switch drops and pendant lighting.

Cornice trunking assembly is manufactured using 100% recycled material

### Bench trunking

105 x 105mm

Robust angular containment for distributing services on the desktop or workbench. Can accept standard wiring accessories.

Bench trunking assembly is manufactured using 50% recycled material

### Sovereign Plus

75 x 20mm

Skirting trunking with one piece cover.

Sovereign Plus skirting trunking is manufactured using 100% recycled material

Figures based on production usage from 1/1/20 to 31/12/20.

## ALL OF OUR PVC-U PRODUCTS CAN BE RECYCLED...

Prevent PVC-U being placed into landfill by recycling our products at the end of their useful life.

**REASSURINGLY RECYCLED**

# MONO 10 TRUNKING

COMPLIANT UP TO  
**CAT 7A**

Mono 10 is a compact trunking that is perfectly suited for the smaller office or workshop area.

**Product information**

- 100 x 50mm
- 1 main compartment
- Can be subdivided
- Suitable for dado application and as a feeder trunking
- Self extinguishing and non-flame propagating PVC-U
- Fire clips available to secure cables within trunking and prevent premature collapse in the event of a fire

**Data information**

- Compliant up to Cat 7a
- Standard bend radius 25mm
- Adjustable data box 32-40mm

**Part M**

Box assemblies and spacers that meet the requirements of Part M (DDA).

## QUALITY REASSURANCE

PVC-U trunking made from recycled windows is more robust than product made from virgin grade material.

# STERLING CURVE

Sterling Curve Profile 1 and 2 are stylish curved perimeter dado and skirting systems that are easy and cost effective to use. Sterling Curve is a sleek data compliant medium sized trunking system with three segregated compartments. The adaptable system has 1 or 2 curved data compartments designed to stop clutter, avoid dust traps and to make cleaning easy.

### Product information

- 167 x 50mm
- 3 segregated compartments
- Suitable for dado and skirting application
- Boxes available to comply with Part M (DDA)
- ETL1 lid is available in charcoal as a Part M compliance option
- Single piece moulded fittings
- Flat Tees and Flat Angles have integral bend radius control
- Profile 1 is available as a BIO version with antimicrobial properties inherent to the PVC-U material
- Self extinguishing and non-flame propagating PVC-U
- Fire clips available to secure cables within trunking and prevent premature collapse in the event of a fire

### Data information

- Compliant up to Cat 7a
- Standard bend radius 25mm
- Adjustable data box 32-40mm
- Steel screening divider available to BS EN 50714-2

# Sterling Curve Trunking

Sterling Curve features a host of practical features for quick and easy installation

# ODYSSEY

Odyssey is a three-compartment trunking system with a completely curved front profile designed with tamper-resistant covers and fittings and flush accessories to enhance the finished appearance. Odyssey's curved profile is easy to clean and prohibits surface clutter.

### Product information

- 180 x 57mm
- 1 main compartment and 2 smaller outer compartments
- Can be subdivided by using EDF1 dividing fillet
- Suitable for dado application
- Tamper resistant covers and fittings
- Self extinguishing and non-flame propagating PVC-U
- Fire clips available to secure cables within trunking and prevent premature collapse in the event of a fire
- Odyssey trunking and fittings are available with antimicrobial BIO properties inherent to the PVC-U

### Data information

- Compliant up to Cat 7a
- Standard bend radius 25mm
- Data fittings available for bend radius up to 65mm
- Steel screening divider available to BS EN 50714-2
- Adjustable data box 32-40mm

# Twin Plus

Twin Plus is a high cable capacity trunking system with a variety of practical features for power and data installations

# XL TRUNKING 201 AND 202

XL Trunking 201 and 202 are deep, large capacity 3 compartment, segregated containment systems.

**Product information**

- 220 x 65mm
- 1 full and 2 half size compartments
- XL201 for dado installation only
- 3 deep segregated compartments
- Can be subdivided
- Suitable for dado and skirting application
- Can be fed from larger trunking systems for increased cable distribution
- Boxes available to comply with Part M (DDA)
- Self extinguishing and non-flame propagating PVC-U
- ETL1 lid is available in charcoal as a Part M compliance option

**Data information**

- Compliant up to Cat 7a\*
- Adjustable data box 32-47mm
- Steel screening divider available to BS EN 50714-2

**Part M**

Box assemblies and spacers that meet the requirements of Part M (DDA).

# Firefly

## FIREFLY FIRE SAFETY CLIPS: SAVING LIVES IN THE EVENT OF A FIRE

**firefly**<sup>™</sup>  
FIXINGS  
from Marshall-Tufflex

To comply with BS 7671:2018 IET Wiring Regulations, Marshall-Tufflex supply a range of Firefly fire clips to secure cables internally or externally of trunking or conduit. The clips are designed to secure all surface cables throughout an installation.

- Fire safety clips to comply with BS 5839-1
- For use with trunking and conduit
- Spring loaded design for easy installation or removal of cables
- Designed for quick installation and to maximise internal trunking space
- Internal version to fit within trunking prior to cables being installed
- External version to retrofit onto existing installations
- Melt point over 1000°C

## Regulations

Regulations state that wiring systems shall be supported such that they will not be liable to premature collapse in the event of a fire.

Firefly clips meet the requirements of the current version of BS 7671 Wiring Regulations to secure surface cables and to avoid the risk of entanglement in the event of a fire.

Firefly clips feature rounded ends, preventing damage to cables and injury to installers. The spring-loaded design makes it straightforward to install and to add or remove cables after the initial installation.

### BS 7671:2018 IET Wiring Regulations

See chapter 52 Selection and Erection of Wiring Systems 521.10.202 of the IET Wiring Regulations

# MINI AND MAXI TRUNKING

A range of cost-effective PVC-U cable containment for general wiring installations.

MINI AND MINI TRUNKING

# MINI AND MAXI TRUNKING

Our Mini and Maxi trunking systems are easy to install, light to handle and cost-effective to use. We have a wide range of PVC-U trunking solutions in different heights, designs, cable capacities for the distribution of power and data; making it an excellent choice of material for the majority of commercial, education and healthcare environments. PVC-U is a self-extinguishing material and therefore helps to stop the spread of fire.

Our white Mini and Maxi trunking lengths are manufactured using 100% recycled content.

## Standard colour

Mini and Maxi trunking systems are available in solid white RAL 9003.

Maxi trunking is also available ex-stock in clear PVC-U at the 50 x 50mm size.

Standard colour
WH
WH: White

### Mini trunking

10 x 8mm to 38 x 38mm

Range of small size containment for general wiring. Standard and self-fix options are available. Punched profiles for single compartment and self-fixing trunking now available.

Page 39

### Maxi trunking

50 x 50mm to 150 x 150mm

A mid-size containment that can be subdivided for general wiring. Larger sizes can accommodate wiring accessories.

Page 42

Mini trunking lengths are manufactured using 100% recycled material

Maxi trunking lengths are manufactured using 100% recycled material

## Environmental & sustainability

- We use recycled PVC-U in our manufacturing process, reducing carbon emissions in doing so.
- Research has shown that the use of recycled PVC offers a 20-fold reduction in greenhouse gas (GHG) emissions compared to virgin product. 100% recyclable material and has a long life cycle. We encourage our products to be recycled at the end of their useful life.
- PVC-U is a cost-effective, sustainable choice and comparable with other materials such as steel, aluminium, copper and wood.
- Virgin grade PVC-U has the lowest oil content of a commodity plastic.
- No increase in dioxin emission from Municipal Waste Incineration. No phthalates used in manufacture of PVC-U or FR-ABS.
- Lead-free formulations are used for mouldings and extrusions.
- No use of cadmium-based stabilisers or pigments.

## EMI protection

- Steel dividers are available for certain sizes of trunking, please contact our Technical team for further details on +44 (0) 1424 856688.

## Fire performance

- The fire rating for PVC-U is excellent\* and PVC-U has all the characteristics required for Fire Escape Time.
- Highly resistant to ignition.
- Does little to contribute to the spread of fire and is classified to Building Regs: Class 0.
- Chars and is self-extinguishing.
- Has a low rate of smoke production during the early stages of a fire.
- Acts as an effective barrier to flame spread from malfunctioning electrical components within systems.
- Does not produce flaming droplets or burning debris.

\*see the independent report at [www.beama.org.uk](http://www.beama.org.uk)

# MINI TRUNKING

Mini trunking is an economical feeder trunking system with easy accessibility for wiring and re-wiring.

### Product information

- A variety of sizes from 10 x 8mm to 38 x 38mm
- Self-fixing systems and punched systems available
- Self extinguishing and non-flame propagating PVC-U
- Punched holes compatible with Firefly fire safety clips
- Fire clips available to secure cables and prevent premature collapse in the event of a fire

FCMS	100

**Cavity fixings & screws**

code	pack
FCCS	50

We recommend using self tapping masonry or cavity screws and washers for all Fire clip installations in order to assist with meeting BS 7671 Wiring Regulations.

Not only are we reducing landfill;  
**MANUFACTURING FROM RECYCLED PVC-U REDUCES CARBON EMISSIONS BY 20 TIMES VS VIRGIN MATERIAL**

**REASSURINGLY RECYCLED**

**REASSURINGLY RECYCLED**

# MAXI TRUNKING

A mid-size feeder and distribution trunking that can be subdivided to carry power and data. Larger sizes can also accommodate wiring accessories.

### Product information

- A variety of sizes from 50 x 50mm to 150 x 150mm
- Single or divided compartment options
- Self extinguishing and non-flame propagating PVC-U
- Fire clips available to secure cables and prevent premature collapse in the event of a fire

Single compartments are subdividable

Standard Colour
WH
WH: White

OUR WHITE MAXI LENGTHS ARE MANUFACTURED USING 100% RECYCLED MATERIAL.

We recommend using self tapping masonry or cavity screws and washers for all Fire clip installations in order to assist with meeting BS 7671 Wiring Regulations.

# ACCESSORY BOXES, PLATES AND ENCLOSURES

Surface and flush accessory boxes, enclosures and accessories for use with trunking and conduit.

ACCESSORY BOXES, PLATES AND ENCLOSURES

# SWITCH AND SOCKET BOXES

Switch and socket boxes for use with conduit or mini trunking with a range of knockout options.

### Product information

- Universal box options with knockouts for both conduit and mini
- Radius and square corner variants
- External dimensions: 1 gang - 87 x 87mm; 2 gang - 87 x 147mm
- M3.5 brass inserts
- Can be cut and drilled without the risk of shattering
- Boxes comply with BS 4662:2006+A1:2009
- Moulded enclosures and earth rod boxes

ACCESSORY BOXES, PLATES AND ENCLOSURES

## Square corners

Size: 86 x 146mm O/A  
Not available in black

Moulded enclosures

**Moulded enclosure unit (Adaptable box)**

code	external size	pack
MTAB75AWH	81 x 81 x 67mm	10
MTAB100AWH	106 x 106 x 67mm	10
MTAB150BWH	155 x 155 x 92mm	4

Also available in black

**Product information**

- Degree of protection IP66.
- Raised pads in base of box to allow accessory mounting nuts to be recessed.
- Silicon rubber lid seal supplied as standard.
- Brass inserts M3.5 with stainless countersunk fixing screws.
- Suitable for drilling or cutting.
- Raised flat lid for strength.

Earth rod box

**Earth rod box**

code	external size	pack
MECB75BK	81 x 81 x 67mm	10

**Product information**

- Protects connection to earth rod.
- Earth rod/cable entry  $\varnothing$ 7-10.5mm.

# FLUSH MOUNTED DRY LINING BOXES

Flush mounted boxes for use within stud walls for alleviating the necessity of using noggins. Boxes feature a wide securing flange around the outer rim.

### Product information

- Wide securing flange to prevent box passing through cavity
- Swivelling snap out clamps will tightly grip a range of standard thickness building boards
- Earth terminal provision incorporated

### Snap out clamps with size identification by colour:

Wall thickness adjustment	Clamp colour
1 - 9mm	Grey

# ACCESSORY BOXES, PLATES AND SPACERS

A range of white and coloured accessory boxes for installation into our trunking systems.

### Product information

- Accept standard UK accessories
- Standard screw fixing centres
- Adjustable depth
- Coloured options in blue RAL5002 and charcoal RAL7021
- Accessory boxes manufactured with antimicrobial properties for use with Sterling Curve Bio (ESSB1BIOWH and ESSB2BIOWH).

Approved Document M of the UK Building Regulations for Visual Impairment requires that face plates differ in colour from their background. Coloured accessory boxes provide a different colour frame to contrast against standard white accessories.

Boxes for UK accessories

# CONDUIT AND CHANNEL SYSTEMS

Round and oval PVC-U conduit  
channel and fittings.

CONDUIT AND CHANNEL SYSTEMS

 REASSURINGLY  
RECYCLED

 Marshall  
Tufflex

# CONDUIT AND CHANNEL

Conduit and channel made from super high impact self-extinguishing PVC-U.

## Product information

### Conduit

- Light and heavy gauge options
- Meet requirements for BS 4607, BS EN 61386-1:2008+A1:2019, BS EN 61386-21:2021+A11:2021 and BS EN 61386-25:2011 where applicable
- Fire clips and straps to support cables and prevent premature collapse in the event of a fire.

### Boxes

- Provision for MET1 brass earth terminal
- All boxes have threaded brass inserts

Light and heavy gauge options

**REASSURINGLY RECYCLED** OUR WHITE CONDUIT LENGTHS ARE MANUFACTURED USING 100% RECYCLED MATERIAL.

### Standard Colours

MER3WH	25mm	20
MER4WH	32mm	20

Circular extension rings have two lugs fitted with M4 brass inserts and two plain bored lugs. Not available in black

**U** For Universal Switch and Socket boxes suitable for conduit/mini installations, see page 46-

### Flush mounted boxes

#### 1 gang – adjustable lug

code	depth	pack
MSSB1WH	35mm	12
MSSB47WH	47mm	10

Entries: 2 x ø20mm on each of 4 sides (MSSB1 and MSSB47). Not available in black

#### 2 gang – adjustable lug

code	depth	pack
MSSB3WH	35mm	6

Entries: 4 x ø20mm on horizontal sides, 2 x ø20mm on vertical sides. Not available in black

#### Flush mounted boxes

Flush mounted boxes can be used with conduit in plasterboard or solid walls. The flanged lip aids a secure fit between the back box and switchgear reducing the chances of contact with live parts.

1 gang = 74 x 74mm with 60.3 fixing centres  
2 gang = 134 x 74mm with 120.6 fixing centres

**Regulations**

Regulations state that Wiring Systems shall be supported such that they will not be liable to premature collapse in the event of fire. This applies to all access or egress routes not just escape routes. Firefly clips meet the requirements of BS 7671:2018 section 521.10.202 Wiring Regulations to secure all surface cables and to avoid the risk of entanglement in the event of a fire.

# BENDEX CABLE MANAGEMENT

Bendex is a range of affordably priced essential cable management solutions, manufactured in the UK by Marshall-Tufflex. The range includes PVC-U trunking, conduit, cable protection guard, channelling, surface boxes and IP rated sockets.

As with the Marshall-Tufflex range, Bendex products are manufactured using a high percentage of recycled PVC-U which varies across the range depending on the type of product.

BENDEX

## Environmental & sustainability

- We use recycled PVC-U in our manufacturing process, reducing carbon emissions in doing so.
- Research has shown that the use of recycled PVC offers a 20-fold reduction in greenhouse gas (GHG) emissions compared to virgin product. 100% recyclable material and has a long life cycle. We encourage our products to be recycled at the end of their useful life.
- PVC-U is a cost-effective, sustainable choice and comparable with other materials such as steel, aluminium, copper and wood.
- Virgin grade PVC-U has the lowest oil content of a commodity plastic.
- No increase in dioxin emission from Municipal Waste Incineration. No phthalates used in manufacture of PVC-U or FR-ABS.
- Lead-free formulations are used for mouldings and extrusions.
- No use of cadmium-based stabilisers or pigments.

## Fire performance

- The fire rating for PVC-U is excellent\* and PVC-U has all the characteristics required for Fire Escape Time.
- Highly resistant to ignition.
- Does little to contribute to the spread of fire and is classified to Building Regs: Class 0.
- Chars and is self-extinguishing.
- Has a low rate of smoke production during the early stages of a fire.
- Acts as an effective barrier to flame spread from malfunctioning electrical components within systems.
- Does not produce flaming droplets or burning debris.

Bendex trunking systems are available in solid white RAL 9003.

# CHALLENGER TRUNKING SYSTEM

Challenger is a three compartment trunking system compliant up to Cat 7a, suitable for office school or college environments. This easy to install system, can be fitted at dado or skirting level and includes a pre-drilled base to speed up installation.

- 167 x 50mm
- 3 segregated compartments
- Suitable for dado and skirting application
- Single piece moulded fittings
- Flat tees and flat angles with integral bend radius control
- Self-extinguishing and non-flame propagating PVC-U
- Recycled PVC-U is utilised in the manufacturing process

COMPLIANT UP TO  
**CAT 7A**

**Data Information**

- Compliant up to Cat 7a
- Standard bend radius 25mm

# CABLE PROTECTION GUARD

Bendex cable protection guard is the perfect solution to protect cables from impact and damage on telegraph poles and exposed brickwork. Highly shock-resistant but light in weight, it is easy to transport and install thanks to pre-drilled screw holes.

## Product information

- Supplied with pre-drilled screw holes for easy installation
- Lightweight and easily transported
- Shock resistant
- Manufactured in high quality black PVC-U for extra impact protection
- Bendex cable guard is BT specified

### Cable protection guard

code	size	pack
CG19BK	19 x 19mm	10 x 3m

CG80BK	80 x 80mm	5 x 3m

Cable protection guard

# LOBLITE IP RATED SOCKETS

IP rated 13A-230V sockets that are weatherproof to IP66 when in use (fully closed). Engineered to perform in demanding environments, including industrial buildings, garages, farms, gardens, swimming pool areas, wherever exposure to dust or water may be encountered.

### IP66 explained

**First digit (6) = solid protection**

Totally protected against dust

**Second digit (6) = liquid protection**

Protection against strong jets of water eg. on ship decks, limited ingress permitted

IP Socket

**1 gang IP66 socket**

code	colour	pack
LOBSGSKTWH	white	1
LOBSGSKTLG	light grey	1

BENDEX

**WE USE RECYCLED WINDOWS TO CREATE BENDEX CABLE MANAGEMENT PRODUCTS.**

**REASSURINGLY RECYCLED**

# ALL OF OUR PVC-U PRODUCTS CAN BE RECYCLED...

Prevent PVC-U being placed into landfill by recycling our products at the end of their useful life.

# ALUMINIUM TRUNKING SYSTEMS

Aluminium cable containment is an excellent choice of material for office areas that need a stylish but mechanically robust trunking and for industrial, workshop and laboratory installation, particularly where a high quality of screening performance is required.

# ALUMINIUM TRUNKING SYSTEMS

The physical properties of aluminium are ideally suited for internal cable management distribution. Aluminium is light to handle with high mechanical strength and impact-resistance.

Extruded sections provide attractive profiles and products are finished with a high quality, powder-coat that provides a blemish-resistant surface.

Aluminium perimeter trunking systems provide elegant, stream-lined containment with the practical advantages of inherent LSOH (low smoke zero halogen). Aluminium is an excellent choice for office and educational areas requiring a stylish yet robust trunking system, particularly effective where a high quality of screening performance and security is required.

Marshall-Tufflex offer a wide range of multi-compartment aluminium trunking in different heights, designs, cable capacities and numbers of compartments.

## Standard colour

Our aluminium trunking systems are all available in silver grey RAL 9006. Some systems are also available in white RAL 9016 as per the table below..

Colour	Colour code suffix	Bench trunking	Elegance 110	Sterling Curve profile 1	Sterling Curve profile 2	Twin Plus	XL301	XL302
Silver Grey (RAL 9006)	SG	✓	✓	✓	✓	✓	✓	✓
White (RAL 9016)	WH	✓		✓				

### Environmental & sustainability

- Aluminium is naturally found combined in over 270 different minerals, the chief source of which is bauxite ore.
- Its light weight means less strain on supporting structures, easier handling and reduced transport costs.
- 100% recyclable material and can be recycled many times without loss of quality.
- Recycling facilities are well established.

### EMI protection

- First class EMI screening performance especially at higher frequencies.

### Fire performance

- Aluminium systems specified with polycarbonate fittings meet accepted requirements for LSOH.
- Withstands high temperatures with a melting point of 655°C (1211°F).
- Polycarbonate fittings are fire rated to UL94 V0.

**Bench trunking**

**105 x 105mm**

Desk and laboratory trunking.

# BENCH TRUNKING ALUMINIUM

COMPLIANT UP TO  
**CAT 7A**

Bench trunking aluminium is a robust angled trunking that can be mounted directly on to desks, work benches or fitted under shelving.

**Product information**

- 105 x 105mm
- Suitable for desk, bench or worktop applications
- Can be subdivided
- Aluminium systems specified with polycarbonate fittings meet accepted requirements for LSOH

**Data information**

- Compliant up to Cat 7a
- Adjustable data box 32-40mm

**Note:** Allowance must be made for earthing the trunking system to comply with the current version of the BS 7671 Wiring Regulations.

**Part M**

For 1 and 2 gang box assemblies with coloured flush plates to comply with Part M please refer to page 49.

These products are manufactured from PVC-U and are not LSOH

Standard Colours

# ELEGANCE 110 ALUMINIUM

Elegance 110 aluminium is a small, rectangular, dado trunking system with a single cover. It is particularly useful for workshop or laboratory supply or in a commercial environment where extra mechanical strength is necessary.

**Product information**

- 110 x 55mm
- Compliant up to Cat 7a
- Can be subdivided into 2 compartments
- Suitable for dado and skirting applications
- Aluminium systems specified with polycarbonate fittings meet accepted requirements for LSOH

**Note:** Allowance must be made for earthing the trunking system to comply with the current version of the BS 7671 Wiring Regulations.

# STERLING CURVE ALUMINIUM PROFILE 1 AND 2

COMPLIANT UP TO  
...CAT 7A...

Sterling Curve Aluminium is a robust and stylish Cat 7a compliant perimeter dado or skirting system that is easy and cost effective to use. The adaptable system has a curved outer top compartment to stop clutter and aid cleaning.

### Product information

- 167 x 50mm
- 3 segregated compartments
- Suitable for dado and skirting application
- Boxes available to comply with Part M (DDA)
- Single piece moulded polycarbonate couplers, end caps, internal and external bends
- Choice of adjustable or fixed bends for Profile 1
- Fabricated aluminium flat tees and flat angles

### Data information

- Compliant up to Cat 7a
- Standard bend radius 25mm
- Adjustable data box 32-40mm

### Part M

For box assemblies and spacers that meet the requirements of Part M (DDA) please refer to page 49.

These products are manufactured from PVC-U and are not LS0H

### Standard Colours

# TWIN PLUS ALUMINIUM

Twin Plus aluminium is an extra deep cable management solution incorporating two large segregated high capacity compartments. Twin Plus is specifically designed for carrying large quantities of Cat 7a data cabling.

**Product information**

- 210 x 57mm
- 2 large permanent segregated compartments
- Suitable for dado and skirting applications
- Bends angles and tees with a large bend radius
- Includes a range of clip-on fittings with built-in overlaps
- All fittings are polycarbonate
- Aluminium systems specified with polycarbonate fittings meet accepted requirements for LSOH

**Data information**

- Compliant up to Cat 7a
- 50mm bend radius fittings
- Adjustable data box 32-47mm

**Note:** Allowance must be made for earthing the trunking system to comply with the current version of the BS 7671 Wiring Regulations.

**Part M**

For 1 and 2 gang box assemblies with coloured flush plates to comply with Part M please refer to page 49.

# XL301 AND XL302 ALUMINIUM

COMPLIANT UP TO  
**CAT 7A**

XL aluminium trunking 301 and 302 are deep, 3-compartment systems that provide extra capacity and screening performance levels for data cabling.

**Product information**

- 220 x 65mm
- 3 deep segregated compartments
- Compartments can be subdivided
- Suitable for dado and skirting applications  
Includes a range of polycarbonate clip-on fittings with built-in overlaps
- Aluminium systems specified with polycarbonate fittings meet accepted requirements for LSOH

**Data information**

- Compliant up to Cat 7a
- External bends feature internal segregators
- Adjustable data box 32mm - 47mm
- Screened divider

**Note:** Allowance must be made for earthing the trunking system to comply with the current version of the BS 7671 Wiring Regulations.

ARE MANUFACTURED  
USING 100%  
RECYCLED MATERIAL.**

# STEEL TRUNKING SYSTEMS

Steel trunking systems incorporate clean lines with a functionality that provides greater mechanical strength combined with first class fire performance and excellent screening capability.

STEEL TRUNKING SYSTEMS

# STEEL TRUNKING SYSTEMS

Steel has a mechanical strength that makes it a robust and durable option for public areas where there is a high footfall. Steel trunking is hard-wearing, with all the advantages of inherent LSOH (low smoke zero halogen).

The system has stylish clean lines and greater mechanical strength combined with first class fire performance, excellent screening capability and increased capacity for power and data services.

- Ease of installation – our base unit has two standard mounting holes of 6.5mm every 500mm
- Multiple earthing possibilities in the trunking, via the multi-purpose clip and coupler set
- Base systems held by internal coupler sets with scraping cams
- Friction fit covers
- Simple to cut system – empty base with no rail to cut through
- Wide range of fittings and accessories

## Standard colour

The standard colour for Steel trunking is white RAL 9010.

<b>Standard Colour</b>
WH
WH: White RAL 9010

STEEL TRUNKING SYSTEMS

### Environmental & sustainability

- Steel is very friendly to the environment - 100% recyclable material.
- Compared to other materials it requires relatively low amounts of energy to produce.
- Can be recycled many times without loss of quality. The steel industry has been recycling for more than 150 years.
- Recycling one tonne of steel saves 1,100 kilos of iron ore, 630 kilos of coal and 55 kilos of limestone.
- Structural steel typically contains around 95% recycled steel content.
- Recycling facilities are well established.

### EMI protection

- Steel naturally has very strong EMI protective properties.

### Fire performance

- Steel trunking systems meet accepted requirements for LSOH.
- Withstands high temperatures with a melting point of approximately 1370°C (2500°F).
- Type and thickness of any coating needs to be considered as this can affect fire performance.

**System 130**

130 x 63mm

A compact rectangular dado trunking also suitable as a feeder trunking.

Page 86

**System 170**

170 x 63mm

# TUFFLEX TILE

A lightweight Correx pattress tile designed to speed up the installation of electrical products within suspended ceiling installations.

TUFFLEX TILE

 REASSURINGLY  
RECYCLED

 Marshall  
Tufflex

# TUFFLEX TILE

The Tufflex Tile is a quick and easy pattress solution that takes the hassle out of traditional ceiling installations. A cleaner, lighter, safer and faster alternative to wood solutions, the Tufflex Tile is super lightweight, strong and easy to cut or drill meaning installations can be completed far more quickly. Additionally, the product is flame retardant and LSF removing a key component of the fire triangle.

### Product information

- Super lightweight Correx material that's easy to handle and store
- Pre-cut 595 x 595mm squares to suit standard ceiling tile dimensions
- No need to cut or saw plywood/MDF
- Pre-chamfered edges for a quick fit
- Tested to hold a 5kg load
- Flame retardant and self-extinguishing
- Requires less PPE (as no need for cutting and sawing)
- No waste or dust (as no need for cutting and sawing)

### Regulations

BS 7671 18th edition wiring regulations, regulation 134.1.1 states that 'the installation of electrical equipment shall take account of manufacturers' instructions - manufacturers recommend that a pattress is required for fixing fittings in suspended ceiling installations.'

Tufflex Tile

Tufflex tile		
code		pack
CPT1	595 x 595 x 4mm	25

### Compliance & Standards

- DIN 4102 Class B1
- UL94 V2 (reduced to V2 because of droplets, otherwise V0 behaviour)
- ASTM D635 burning time less than 5 seconds
- BS 4662:2006+A1:2009 15.4.3.3 - Pass
- BS 2782 Method 508A – Pass
- UK Building Regs Part B

## A quick and easy pattress solution

- ✓ Lightweight
- ✓ Easy to cut
- ✓ No waste/dust
- ✓ Flame retardant

# MT SUPERTUBE

MT Supertube is a LSOH,  
three layer heavy gauge  
conduit offering a considerable  
installation time saving when  
compared to galvanised steel  
conduit

MT SUPERTUBE

# MT SUPERTUBE

MT Supertube is a unique, LSOH, 3-layer heavy gauge conduit comprising polyethylene internal and external layers over a continuous aluminium tube that provides additional mechanical strength. MT Supertube has excellent EMI screening performance and is a practical and cost-saving alternative to standard galvanised conduits.

### Product information

- Ø20mm and Ø25mm
- LSOH conduit
- Excellent screening performance
- Suitable for rail, marine and tunnel applications
- ZERO WASTE: available in continuous lengths of up to 100 metres, meaning fewer fittings per installation
- Longer lengths also prevent ingress of water
- Extra security from data interference
- Suitable for in-screed applications
- Withstands temperatures from -45°C to +120°C
- Nail penetration: MT Supertube complies with requirements of the current version of BS 7671, BS EN 61386-1:2008
- BS 8436 is specification for 300/500V screened electric cable

**Note:** Allowance must be made for earthing the trunking system to comply with the current version of the BS 7671 Wiring Regulations.

Only available in black

**MT Supertube EMI protection boxes and fittings**

- Provision to accept a 4mm earthing screw
- All boxes supplied with conduit retaining screw
- All boxes are designed to comply with the current version of BS 7671 Wiring Regulations
- Taper push-fit conduit entry

**Contractor cost & labour saving example** *(based on contractor purchase price)*

Costs calculated on using 100m of 20mm conduit with 8 off 90° bends and estimated manpower costs of £45 per hour.

**Galvanised steel**

Material cost @ £3.44 per metre + fittings = £356.72  
 Labour @ 30 mins per metre = 2 metres per hour  
 50 hours @ £45.00 = £2250.00  
 Galvanised steel overall costs = £2606.72

**MT Supertube**

Material cost @ £4.31 per metre + fittings = £452.14  
 Labour @ 10 mins per metre = 6 metres per hour  
 16.67 hours @ £45.00 = £750.15  
 MT Supertube overall costs = £1202.29

The savings on this job amount to £1404.43

**53.88% cheaper than galvanised steel**

It is also possible to reduce overall project costs by using MT Supertube as it can be bent into position by hand therefore reducing the need for as many fittings.

These figures are based on Marshall-Tufflex trade list price 20th June 2022 (for MT Supertube) and quoted wholesaler prices (for galvanised steel conduit).

- Provision for brass earthing terminals
- Boxes comply with the current version of BS 7671 Wiring Regulations and BS 4607 where applicable

# POWERPOLES AND POWERPOSTS

**PowerPoles and PowerPosts are a practical and elegant solution for the management of power, data and communication services to island workstations.**

POWERPOLES AND POWERPOSTS

# POWERPOLES AND POWERPOSTS

Our square double sided PowerPoles and PowerPosts are a practical solution for the management of power, data and communication services to island workstations.

### Product information

- Aluminium body for strength and rigidity
- Suitable for suspended and solid ceiling applications
- Cabling can be fed from the ceiling, from the floor or both
- Supplied with 6 accessory plates
- Standard 3.6m PowerPole includes ceiling fixing bracket
- PowerPole extension kit available to extend up to 5m
- Can be subdivided
- PowerPost designed to fit below standard desk height

Standard finish

# WE ARE PVC-U EXPERTS...

With over 80 years in the extrusion business.

# UNDERFLOOR TO DESK SOLUTIONS

A comprehensive product range of flexible floor to desk cable management and prefabricated wiring systems developed to provide installations that are a fast-fix, flexible and easy to adapt for the contractor and the client

# UNDERFLOOR TO DESK SOLUTIONS

Marshall-Tufflex's underfloor to desk solutions incorporate a range of products for the distribution of power and data services from beneath raised floors and in-screed systems to desks.

Underfloor to desk solutions provide a sustainable wiring option, offering zero waste systems which can be re-used and re-configured.

## In-screed system

PVC-U or steel ducting with 3 and 4 compartment outlet boxes.

Page

# IN-SCREED FLOORING SYSTEMS

A range of floor outlet boxes, fittings and plates in galvanised steel, with choice of PVC-U or steel ducting designed to be positioned within screed flooring.

### Product information

- 3 and 4 compartments (boxes come with extra divider to make 4 compartments)
- Suitable for 65-85mm screed depth
- Boxes for deeper floor screed available on request
- Lid recess to suit up to 6mm carpet tile
- For advice on box tray lids for non-standard floor finishes please contact our Technical Team
- Adjustable for box trim height
- Grey moulded carpet trim for floor outlet boxes
- Steel trims with various finishes available
- Universal junction box with integral, fully-reversible cable segregation

<b>Standard floor box trim</b>
<b>GY</b>
GY: Grey RAL7011 (floor box trim)

**Other trim finishes:** Floor boxes can be provided with a variety of trim finishes such as brass, stainless steel and painted colours. For further information please contact the Technical Team on +44 (0)1424 856688.

### Floor materials

Marshall-Tufflex can supply floor outlet boxes and junction boxes that are suitable for different floor materials, such as marble, stone or wood, or where a higher IP rating is required. For more information on these, please contact our Technical Team on +44 (0)1424 856688.

UNDERFLOOR TO DESK SOLUTIONS

# POWERTRACK

A range of 63Amp powertrack complete with integral mounting brackets and pre-assembled end caps and couplers for ease of installation.

**Product information**

- Each length of track comes complete with pre-assembled coupler, end cap and floor mounting brackets.
- Maximum 63Amp rating
- Tap-offs are key and colour coded for Standard and CE (Clean Earth)
- Tap-offs are 32Amp rated or fused at 13Amp
- Adhesive dust covers protect outlets
- Compatible with MT32 pre-wired floor boxes

Powertrack and fittings are independently tested by Intertek

Identification

All tap-off units comply with the latest version of the Wiring Regulations Section 543 (High Integrity Earthing).

**Powertrack – run length component chart**

To determine the number and size of track required for a given area, select your total run length (in metres) from the left hand column, then find the correct track combinations along that row.

Total run in metres	Track lengths required			
3.6	3.6			
4.2	1.8	2.4		
4.8	2.4	2.4		
5.4	3.6	1.8		
6.0	3.6	2.4		
6.6	2.4	2.4	1.8	
7.2	3.6	3.6		
7.8	3.6	2.4	1.8	
8.4	3.6	3.6	1.2	
9.0	3.6	3.6	1.8	
9.6	3.6	3.6	2.4	
10.2	3.6	3.6	1.8	1.2
10.8	3.6	3.6	3.6	
11.4	3.6	3.6	2.4	1.8
12.0	3.6	3.6	3.6	1.2

Total run in metres	Track lengths required					
12.6	3.6	3.6	3.6	1.8		
13.2	3.6	3.6	3.6	2.4		
13.8	3.6	3.6	3.6	1.8	1.2	
14.4	3.6	3.6	3.6	3.6		
15.0	3.6	3.6	3.6	2.4	1.8	
15.6	3.6	3.6	3.6	3.6	1.2	
16.2	3.6	3.6	3.6	3.6	1.8	
16.8	3.6	3.6	3.6	3.6	2.4	
17.4	3.6	3.6	3.6	3.6	1.8	1.2
18.0	3.6	3.6	3.6	3.6	3.6	
18.6	3.6	3.6	3.6	3.6	2.4	1.8
19.2	3.6	3.6	3.6	3.6	3.6	1.2
19.8	3.6	3.6	3.6	3.6	3.6	1.8

We recommend that no single run of Powertrack exceeds 20 metres.

# RAISED FLOOR BOXES AND GROMMETS

A high quality range of raised floor boxes to provide power and data to desks within the modern office environment. Available as standard or heavy duty versions, boxes are supplied with dividers for quick and easy configuration as either a 3 or 4 compartment box.

**Product information**

- Standard depth 83mm
- Supplied with dividers to create 3 or 4 compartment box
- Two earth fixing points for flexible positioning of sockets
- 3mm thick medium load plate
- Fixings are pre-punched for quick and easy installation
- Supplied with metal screws to attach trim to box for a secure fix
- Steel sub-frame option for heavy traffic and fine adjustment to allow for uneven flooring
- Supplied with two snap-in cable retainers/guides
- Lid recess to suit up to 6mm carpet tile
- Reversible and self closing lid for extra safety and security
- Barrel lock option available for extra security
- Knockouts in the base for better access
- Data connections to meet data cable specifications

UNDERFLOOR TO DESK SOLUTIONS

# POWER AND DATA MODULES

A range of power and data modules ideal for under desk mounting.

### Product information

- High strength, flame retardant moulded modules
- Polycarbonate RCBO units
- Power modules
- Can be fed from wall trunking, floor boxes, grommets or powerpoles
- For single use or modules can be interlinked
- In-feed supply either by GST 18/3 connection or plug socket
- Options of unswitched individually fused 3.15Amp or 5Amp sockets
- 2, 4 and 6 gang options plus the ability to link modules
- Polycarbonate power modules with twin USB points
- Desk units comply with BS 6396 for Electrical Systems in Office Furniture when powered from a plug socket outlet and with the current version of the BS 7671 Wiring Regulations when powered from a power distribution network.

## Power module configurations

Our range of power modules and RCBOs can be integrated to deliver a complete system from underfloor to desk with a wide range of configurable arrangements.

Desktop Modules can also be used in conjunction with RCBO's to deliver power, data and USB charging at the desktop.

# DESKTOP MODULES

A selection of stylish desktop modules for the modern office environment with individually fused UK sockets. Perfect for use in hot desking situations or conference rooms, the modules give easy access to power, data and USB charging at the desk surface.

For flexibility of installation, the units are supplied with two methods of attaching to the desktop. G-Clamps with protective desk guards and adhesive pads are both supplied.

- Ergonomic modern design
- 45° angled sockets that can accept large plugs and transformers
- Quick charge USB (1 x Type A + 1 x Type C)
- Sockets are individually fused to 5A
- Includes 500mm pre-wired power lead with male 3-pole connector
- Tough, high impact PVC-U construction
- Flat base for mounting and supplied with desk clamps and adhesive pads
- Master switch with neon power-on indicator
- 6C cut outs for populating with data or multimedia
- GST18/3 plug and play for connectivity to Marshall-Tufflex RCBO modules and feed units

\* Supplied with 1 x Type A USB + 1 x Type C USB

# GRP LADDER AND TRAY SYSTEMS

GRP ladder and tray support systems provide robust yet lightweight cable management for industrial and commercial applications.

GRP LADDER AND TRAY SYSTEMS

# GLASS REINFORCED POLYESTER (GRP)

Glass reinforced polyester (GRP) cable management systems are vitally important for use in the transport, petrochemical and construction industries where it is used to provide lightweight yet mechanically strong materials which replace heavier, more energy consuming materials such as aluminium, steel and concrete. It is a highly competent engineering material, capable of being specified for a large number of construction applications.

GRP cable management systems are well suited to aggressive environments where there might be extreme weather or high temperatures. They are extremely robust, considerably lighter than aluminium or steel, and have excellent resistance against fire and corrosion resulting in a very long life span. GRP systems have a large cable capacity, and offer fast and flexible installation solutions, with the ability of on-site assembly and configuration.

Marshall-Tufflex can offer a wide range of GRP systems including trays, ladders, ground ducts, troughing, accessories and fittings, fixings and supports.

## RISQS Verified

RISQS supports Network Rail, LUL/Transport for London, train operators and other rail products and services providers in the management of supply chain risk. RISQS is an independent, third party qualification assessment of a supplier's capability to supply products and services.

**Marshall-Tufflex is registered with the RISQS Railway Industry Supplier Qualification scheme**

## Approvals

### Mechanical Behaviour

- Breaking point to NEMA FG1
- Tensile strength at break point to ISO 527-5
- Modulus of elasticity to ISO 527-5
- Accelerated aging to ISO 4892-2 & ISO 9227
- IEC 61537

### Electrical behaviour

- Surface resistivity to IEC 6079-0
- Breakage voltage to IEC 60243-1
- Comparative tracking index IEC 60112
- IEC 60093

### Fire resistance to DIN 4102 part 12

### Linear Thermal Expansion to DIN 53752

### Water Absorption to ISO 62

### Environmental & sustainability

- Analysis shows GRP to have one of the best environmental impact profiles of any strong building material.
- GRP is easily dismantled and cut up to use in road metalling and can be re-used in other buildings.
- Buildings using GRP within their infrastructure are lighter and require less energy to heat; with building performance life of 40 to 50 years.
- Light weight and easy handling can result in considerable fuel savings.
- Reduction in the need for motorised cranes and platform lift vehicles.
- Use of acetone has been eliminated.
- Recycling trials for composite parts are progressing satisfactorily in several European programmes, using GRP as a source of heat energy and the resultant residue as raw material in cement manufacture.

### Fire performance

- Excellent fire performance. GRP is a self-extinguishing composition, halogen-free and with low smoke and fume properties.

#### Fire Behaviour

- Inflammability to IEC 60695-2-12/ UL94
- Spread of flame to BS 476 part 7 class 2 / ASTM E84 (Up to Class 1 on request)
- Fire propagation to BS 476 Part 6
- Smoke emissions to BS 6853 App B53
- Fire standard to DIN 4102 part 12
- UL 723

Marshall-Tufflex LSOH GRP systems are very robust and particularly suitable for interior and exterior areas where resistance to corrosion is a requirement. They are considerably lighter than aluminium or steel and have excellent fire performance.

**Pressed tray**

**50 x 50mm to 400 x 80mm**

A complete range of pressed GRP trays for extended support span up to 3metres.

Page 115

**GRP industrial support systems**

**for supporting large power**

Brackets, bolts and rails for use with other GRP systems.

Page 120

**Pultruded ladder**

**200 x 53mm to 900 x 150mm**

A pultruded ladder system for installation into tunnels, bridges, railways, underground, offshore and marine environments.

Page 118

**Ground ducts**

**250 x 140mm to 450 x 176mm**

Self-supporting systems ideal for railway applications.

Page 121

**Cable troughing**

**150 to 250 x 150mm**

Suited to railway applications where cable ducts cannot be buried.

Page 122

GRP cable management systems incorporate non-conductive and self-extinguishing properties, as well as stability, wherever they are subjected to high levels of UV and extreme temperatures. GRP systems are ideal solutions for installation in tunnels, bridges, railways, underground, offshore and marine environments.

### Rail:

**Optimum safety:**

- Self-extinguishing UL94 - V0
- In the event of fire, no halogen toxic fumes (fire classification: M1, i0, F0; ASTM E84, Class 2 or Class 1; BS 476 Part 7, Class 2 or 1)
- No sharp edges or burrs, from cutting or drilling

**Flexibility and easy mounting:**

- Reduces installation costs with unique self coupling mechanism
- No earthing required
- Very strong mechanical resistance, even with high temperature variation
- 10 times lighter than concrete
- Excellent vibration resistance

### Sea:

**Resists corrosion: atmospheric, UV, saline**

**Save installation time and costs:**

- Reduces use of bolts with clip-on splice plates and fixings
- No expensive protection accessories or coatings necessary
- No sharp edges or burrs, from cutting or drilling
- Ensures strong mechanical resistance with a lighter weight than metal
- Excellent vibration resistance

### Road:

**Resists corrosion: combustion gas, salt**

**Optimum safety:**

- Self-extinguishing UL94 - V0
- Does not emit halogen or smoke (fire classification: M1, i0, F0; ASTM E84, Class 2 or Class 1; BS 476 Part 7, Class 2 or 1)
- No sharp edges or burrs, from cutting or drilling

**Flexibility and easy mounting:**

- Reduces installation costs with unique self coupling mechanism
- Save time and money as no earthing is required
- Ensures strong mechanical resistance with a lighter weight than metal
- No expensive protection accessories or coatings necessary
- Excellent vibration resistance

### Petrochemical and Process Plant Industries:

**Cut down corrosion and maintenance costs**

**Reduce installation costs**

- No earthing required
- No expensive protection accessories or coating
- No sharp edges or burrs, from cutting or drilling

**Ensures strong mechanical resistance and a lighter weight**

**Reduces weight of structure**

- Saves 40% against stainless steel
- Saves 15% against aluminium

### Energy Distribution:

**Very strong mechanical resistance, even with high temperature variation**

**No expensive protection accessories or coating necessary**

**Optimum safety:**

- Self-extinguishing UL94 - V0
- No toxic fumes or halogen in case of fire (fire classification: M1, i0, F0; ASTM E84, Class 2 or Class 1; BS 476 Part 7, Class 2 or 1)
- No sharp edges or burrs, from cutting or drilling

# STANDARD SPAN PRESSED TRAY

GRP standard span cable tray and fittings are pressed from glass reinforced polyester resin, using hot moulding technology and facilitating the manufacture of smooth intricate shapes. The system is ideal for installation into tunnels, bridges, railways, underground, offshore and marine environments.

### Product information

- A variety of sizes from 50 x 50mm to 400 x 80mm
- 2.5 times lighter than steel
- Completely corrosion resistant against salt spray, H25, acid build up from exhaust gases and brake dust along roads and railways
- No need for painting or protective coating
- Classified LS0H material
- Self-extinguishing
- Low conductivity
- Earthing not required
- Antimagnetic and resistant to electromagnetic pulses
- Effective at temperatures between -80°C to +130°C
- Lower life cycle cost
- Fast installation with fewer fasteners
- Easy to cut and drill
- Load characteristics in accordance with IEC 61537 (for load or other calculations and values, please refer to the technical section)

Reduced use of bolts

GRP is a non-conductive material with excellent fire performance and high corrosion resistance

# PULTRUDED LADDER

GRP pultruded ladders are manufactured by pultrusion, a process using layers of mats and rovings injected with resin and pulled through a die in a continuous operation. The system is ideal for installation into tunnels, bridges, railways, underground, offshore and marine environments.

### Product information

- A variety of sizes from 200 x 53mm to 900 x 150mm
- 2.5 times lighter than steel
- Completely corrosion resistant against salt spray, H2S, acid build up from exhaust gases and brake dust along roads and railways
- No need for painting or protective coating
- Classified LSOH material
- Self-extinguishing
- Low conductivity
- Earthing not required
- Antimagnetic and resistant to electromagnetic pulses
- Effective at temperatures between -80°C to +130°C
- Lower life cycle cost
- Fast installation with fewer fasteners
- Easy to cut and drill
- Load characteristics in accordance with IEC 61537  
(for load or other calculations and values, please refer to the technical section)

GRP LADDER AND TRAY

# GROUND DUCTS AND PROFILES

GRP ground ducts and profiles are ideal for railway applications wherever below ground installations are required.

## Product information

### Ducts

- 250 x 140mm to 450 x 176mm
- Rigid and self-supporting
- 3 times lighter than GRC (Glass fibre Reinforced Concrete)
- 10 times lighter than concrete
- 2.5 times lighter than steel
- Impact and frost resistant
- Easy to handle and load

### Profile

- 36 x 35mm to 143 x 53mm
- Avoids ballast falling into ducts
- Ensures perfect positioning of ground duct covers
- Increases capacity of existing concrete ground ducts
- High mechanical and corrosion performance

GRP is a non-conductive material with excellent fire performance and high corrosion resistance.

Ground ducts and profiles

#### Duct base 2500mm

code	size	pack
BK200140	250 x 140mm	1
BK300176	350 x 176mm	1
BK400176	450 x 176mm	1

#### Cover 1250mm

code	to fit	pack
BKDR200	250 x 140mm	1
BKDR300	350 x 176mm	1
BKDR400	450 x 176mm	1

#### Clip for cover mounting

code	pack
DF94/4	1

#### Set of clips and hinge for articulate cover mounting

code	pack
DF94/C	1

#### Ground duct profile

code	to fit	pack
PR3635	36 x 35mm	1
PR5045	50 x 45mm	1
PR5555	55 x 55mm	1

#### Ground duct A profile

code	to fit	pack
PR5080	143 x 53mm	1

Ground duct profile

Ground duct A profile

- Increases cable capacity of existing concrete ground ducts
- High mechanical and corrosion performance
- Highly effective at minimum cost

GRP LADDER AND TRAY

# CABLE TROUGHING

GRP cable troughing is ideally suited to railway applications where cable ducts cannot be buried.

**Product information**

- 150 and 250 x 150mm
- Self-supporting base
- High mechanical loading capacity
- One post every 6m
- Lightweight product
- Only one person required for installation

GRP is a non-conductive material with excellent fire performance and high corrosion resistance

# WIRE BASKET SYSTEMS

Basor fast fit wire basket solutions for the simple routing of power and data cables.

WIRE BASKET SYSTEMS

## WIRE BASKET SYSTEMS

A range of Fast Coupling Wire Basket for the simple routing of power and data cables. Strong and simple to install, Basor Wire Basket offers maximum cable ventilation and a high level of resistance to cable movement.

Connection between sections of wire basket is quick and easy thanks to the integral couplers which results in reduced installation times and labour savings.

A unique rippled wire design enhances the product strength and resists flexing.

**BE Basor**  
CABLE TRAY SPECIALIST

### Fast-Coupling

Fast-Coupling Wire Basket is quick and simple to install:

- Two step mounting: fitting and pressure.
- The couplers at the end of the tray are used as guides in the assembly process.
- Once the couplers are connected the system offers excellent earth continuity across the joints.

**4**  
SECONDS

## Materials and suitable applications

Our standard wire basket is electro-zinc coated and is recommended for interior installations.

We can provide a quotation for hot dip galvanised or stainless steel finishes to suit exterior installations but these are subject to longer lead times. The below table identifies the finish suitable for the environment.

		EZ Electro-Zinc	HDG Hot-Dip Galvanised Steel	SST Stainless-Steel (316 grade)
Interior	Dry	Recommended	Overspecified	Overspecified
	Humid	Limited Resistance	Recommended	Overspecified
	Chemical industry	Not recommended	Limited Resistance	Overspecified
	Food industry	Not recommended	Not recommended	Overspecified
Exterior	Urban	Limited Resistance	Recommended	Overspecified
	Chemical industry	Not recommended	Limited Resistance	Overspecified
	Food industry	Not recommended	Limited Resistance	Recommended

### Approvals

- UL Certification E358301 EN61537 – Cable Management
- IEC 61537:2006 Cable management – Cable tray systems and cable ladder systems.

## Rippled design

The unique rippled design of the base of the basket allows for the easy threading of cable ties and increased load capacity with greater resistance to flexing.

Innovative patented design which offers:

- Greater resistance to flexing
- Greater safe working load
- Excellent aesthetic finish

WIRE BASKET

## Useful area

Base Width	Standard Basket 35mm Height*		Fast Coupling 65mm Height		Fast Coupling 105mm Height

300	13.80	89	24.34	157	45.11	291
400	–	–	32.86	212	61.38	396
500	–	–	41.39	267	77.66	501
600	–	–	49.91	322	93.93	606

\*Please note our 35mm wire basket does not have integral couplers

# FAST-COUPLING WIRE BASKET

A fast-coupling system allowing sections of wire basket to be simply joined together for super-fast installation using the integral couplers.

- Two heights available; 65mm and 105mm
- Integral couplers for quick and easy connection in just two steps and only 4 seconds!
- The position of the couplers create a guide making a fast and easy assembly process
- No tools required
- Reduced installation time, saving labour costs
- Strong and lightweight
- Unique rippled wire design to enhance product strength and resist flexing
- Maximum cable ventilation and a high level of resistance to cable movement
- Safety edges to prevent cable damage and personal injury
- Optimal solution for installations that do not require big loads
- Simple manipulations to the wire basket can overcome complicated changes in direction
- Electro-Zinc finish
- Corrosion resistance, can be used in harsh environments
- Fire resistant to E90 DIN 4101 section 12

<b>Standard finish</b>
EZ
EZ: Electro-Zinc

Wire Basket is available in Electro-Zinc as standard.

Finish options: HDG (hot-dip galvanised steel) and SST (stainless steel) are available but these are subject to minimum quantity orders and longer lead times.

65mm Height

# CABLELAY MATTING FOR WIRE BASKET AND TRAY SYSTEMS

Cablelay is laid within lengths of wire basket or tray to protect cables from protrusions, sharp edges, rough surfaces and kinking ridges thus maintaining the integrity of the data cables which lay on top.

Damaged cabling considerably slows down system performance, causes loss of data and costs hours of additional work time. Our Cablelay products are designed to minimise the risk of damage often caused during installation and protects the cabling for the lifetime of the system.

- A lightweight and flexible 6mm thick mat supplied on rolls for quick and easy installation.
- Class 0 fire standard to meet Building Regulations for England and Wales
- Rolls are joined using Cablelay tape which maintains the Fire Standard and prevents joint movement
- Reduces moisture getting absorbed into the cables and impacting on data cable performance

**Cablelay Matting Meets Building Regulations**

Quality assurance and health and safety issues are becoming increasingly more important, Class 0 Cablelay has an excellent fire safety performance complying with Building Regulations by passing both BS476 parts 6 and 7 for fire propagation and surface spread of flames.

# METAL CABLE TRAY

Fast coupling metal cable tray for the routing and support of cables.

METAL CABLE TRAY

## METAL CABLE TRAY SYSTEMS

The Basor range of fast coupling metal cable tray products for the simple routing and support of power and data cables. Strong and simple to install, metal cable tray is available in light, medium and heavy-duty profiles and features a pre-galvanised finish.

The sections of metal tray simply interconnect and bolt together for quick and easy installation, saving time and eliminating the need for separate couplers.

**BE Basor**  
CABLE TRAY SPECIALIST

## Applications

Metal cable tray is ideally suited for installation into many commercial and industrial environments, permitting the upgrade, expansion, re-configuration or relocation of power and data network as required.

- Industrial - Manufacturing, Data Centres, Warehouses and Distribution Centres.
- Commercial - Offices and Retail Outlets.
- Public Sector – Education and Healthcare in power and data areas or above suspended ceilings.

## Material

Metal cable tray is Pre-Galvanised (GS) steel and is recommended for interior installations.

We can provide a quotation for hot dip galvanised (GC) or stainless steel (i316) finishes to suit exterior installations but these are subject to longer lead times.

## Product features

**Installation is quick and easy when using the adjustable riser.**

The adjustable riser can be simply formed to the exact height and angle required.

**Tray connection is quick and simple**

Sections of tray simply interconnect and bolt together eliminating the need for couplers

# PVC CABLE TRAY

Corrosion resistant PVC Cable Tray for the simple routing and support of power and data cables for different external environments.

PVC CABLE TRAY

# PVC CABLE TRAY SYSTEMS

Basor PVC Cable Tray is a non-conductive, non-corrosive, lightweight and impact resistant cable management solution for the simple routing and support of power and data cables.

Lightweight and easy to install, PVC cable tray is available in five different sizes from 100 to 400mm wide.

**BE Basor**  
CABLE TRAY SPECIALIST

## Applications

PVC Cable Tray is ideally suited for installation into environments where Metal Cable Tray cannot be used due to the corrosive nature of the environment. Suited applications include:

### Water treatment plants & commercial swimming pool complexes

- High humidity environments where a non-corrosive installation is recommended.

### Mining industry

- Due to the high moisture environment in many mining operations, PVC cable tray provides a non-corrosive, non-oxidising and non-conductive solution in underground installations.

### Chemical industry

- PVC products provide excellent resistance in chemical environments that can produce very aggressive atmospheres.

### Solar/PV installations

- PVC Cable Tray products provide a lightweight and non-conductive solution for outdoor Solar/PV installations.

### Shorefront installation areas (hotels, piers, ports & harbours)

- Shorefront installation areas can be subject to high salt spray contamination and corrosion due to onshore weather. PVC cable tray provides excellent protection against corrosion in these environments.

## Material

Self-extinguishing and non-flame propagating PVC

### Colour

RAL7035

### UV

Resistant to UV radiation under UL568 certification.

### Strength

Impact Strength 20J (Except 60 x 100mm & 60 x 150mm at 10J)

### Temperature

Minimum temperature -20°C

Maximum temperature 60°C

### Fire

M1 reaction to fire as per UNE 23727

### Recycling

PVC tray is 100% recyclable

## Product features

### Pre-drilled fixing holes

All lengths, bends and risers are supplied with pre-drilled fixing holes for quick installation.

### Straight and adjustable couplers

Adjustable couplers enable tray orientation to be changed to installation needs (up, down, left or right).

## Approvals

EN 61537 – Cable management. Cable tray systems and cable ladder systems

EN 50085 – Cable trunking systems and cable ducting systems for electrical installations

"Fire, glow wire and flammability conformance to EN 60695, UNE 23727, UL94-VO and ANSI/UL94-1995

## Load characteristics

# PVC CABLE TRAY

Basor PVC cable tray provides an effective support system for the routing of power and data cables. Lightweight for ease of installation and weather resistant, PVC cable tray is ideally suited to outdoor installations.

- Product widths from 100mm to 400mm
- Lightweight for ease of installation
- Non-conductive
- Non-corrosive
- Impact resistant
- RoHS Compliant
- Full range of fittings

*Data cable	Ø6.0mm	28.3
*Data cable	Ø6.5mm	33.2
*Data cable	Ø7.0mm	38.5
*Data cable	Ø8.4mm	55.4

#### Maxi 100 x 100mm

Total = 8733mm<sup>2</sup> total area  
 Total = 3930mm<sup>2</sup> 45% space factor  
 1 = 2375mm<sup>2</sup> total area  
 1 = 1069mm<sup>2</sup> 45% space factor  
 2 = 1464mm<sup>2</sup> total area  
 2 = 659mm<sup>2</sup> 45% space factor  
 3 = 4075mm<sup>2</sup> total area  
 3 = 1834mm<sup>2</sup> 45% space factor

#### Internal dimensions

Compartment 1 = 94 x 94mm

#### Maxi 150 x 150mm

Total = 20193mm<sup>2</sup> total area  
 Total = 9087mm<sup>2</sup> 45% space factor  
 1 = 4406mm<sup>2</sup> total area  
 1 = 1983mm<sup>2</sup> 45% space factor  
 2 = 4728mm<sup>2</sup> total area  
 2 = 2128mm<sup>2</sup> 45% space factor  
 3 = 9482mm<sup>2</sup> total area  
 3 = 4267mm<sup>2</sup> 45% space factor

#### Internal dimensions

Compartment 1 = 143 x 144mm

### Cornice trunking

1 = 873mm<sup>2</sup> total area  
 1 = 393mm<sup>2</sup> 45% space factor

### Sovereign Plus trunking

#### Sovereign Plus skirting

1 = 238mm<sup>2</sup> total area  
 1 = 107mm<sup>2</sup> 45% space factor  
 2 = 416mm<sup>2</sup> total area  
 2 = 187mm<sup>2</sup> 45% space factor  
 3 = 261mm<sup>2</sup> total area  
 3 = 117mm<sup>2</sup> 45% space factor

### Bench trunking

#### Dimensions

#### Bench trunking – with box

1 = 1285mm<sup>2</sup> total area  
 1 = 578mm<sup>2</sup> 45% space factor  
 2 = 2128mm<sup>2</sup> total area  
 2 = 957mm<sup>2</sup> 45% space factor  
 3 = 1285mm<sup>2</sup> total area  
 3 = 578mm<sup>2</sup> 45% space factor

#### Bench trunking – no box

1 = 1782mm<sup>2</sup> total area  
 1 = 802mm<sup>2</sup> 45% space factor  
 2 = 3282mm<sup>2</sup> total area  
 2 = 1477mm<sup>2</sup> 45% space factor  
 3 = 1782mm<sup>2</sup> total area  
 3 = 802mm<sup>2</sup> 45% space factor

To determine cable capacity, select the size of the cable required and its corresponding cable factor from the table. Divide the compartment area figure (with or without 45% space factor) with the cable factor figure to achieve cable capacity.

**Note:** When 30mm deep accessory boxes are installed in MTRS100 and MTRS100/50, reduce the area by 2600mm<sup>2</sup>.

### Aluminium trunking capacity guide

#### Trunking height up to 167mm

**Bench trunking – no box**  
 1 & 3 = 1842mm<sup>2</sup> total area  
 1 & 3 = 829mm<sup>2</sup> 45% space factor  
 2 = 3342mm<sup>2</sup> total area  
 2 = 1504mm<sup>2</sup> 45% space factor

**With box in comp 2**  
 2 = 2188mm<sup>2</sup> total area  
 2 = 984mm<sup>2</sup> 45% space factor

**Internal dimensions**  
 Compartment 1 = 101 x 101mm

**Elegance 110 aluminium – no box**  
 1 = 5254mm<sup>2</sup> total area  
 1 = 2364mm<sup>2</sup> 45% space factor

**With box in comp 1**  
 1 = 2987mm<sup>2</sup> total area  
 1 = 1344mm<sup>2</sup> 45% space factor

**Internal dimensions**  
 Compartment 1 = 107 x 52mm

**Sterling Curve Aluminium Profile 1/2 – no box**  
 1 = 993mm<sup>2</sup> total area  
 1 = 447mm<sup>2</sup> 45% space factor  
 2 = 3275mm<sup>2</sup> total area  
 2 = 1474mm<sup>2</sup> 45% space factor  
 3 = 1035mm<sup>2</sup> total area  
 3 = 466mm<sup>2</sup> 45% space factor

**With box in comp 2**  
 2 = 959mm<sup>2</sup> total area  
 2 = 432mm<sup>2</sup> 45% total area

**Internal dimensions**  
 Compartment 1 = 32 x 39mm  
 Compartment 2 = 71 x 46mm  
 Compartment 3 = 29 x 39mm

#### Trunking height over 200mm

**Twin Plus – no box**  
 1 & 2 = 5000mm<sup>2</sup> total area  
 1 & 2 = 2250mm<sup>2</sup> 45% space factor

**With box in comps 1 or 2**  
 1 & 2 = 2733mm<sup>2</sup> total area  
 1 & 2 = 1230mm<sup>2</sup> 45% space factor

**Internal dimensions**  
 Compartment 1 = 95 x 52mm  
 Compartment 2 = 95 x 52mm

**XL301 / XL302 – no box**  
 1 = 2680mm<sup>2</sup> total area  
 1 = 1206mm<sup>2</sup> 45% space factor  
 2 = 4639mm<sup>2</sup> total area  
 2 = 2088mm<sup>2</sup> 45% space factor  
 3 = 3490mm<sup>2</sup> total area  
 3 = 1570mm<sup>2</sup> 45% space factor

**With box in comp 2**  
 2 = 1123mm<sup>2</sup> total area  
 2 = 505mm<sup>2</sup> 45% space factor

**Internal dimensions**  
 Compartment 1 = 64 x 62mm  
 Compartment 2 = 84 x 62mm  
 Compartment 3 = 64 x 61mm

### Steel trunking Series 130 and Series 170

#### System 130 trunking 130 x 63mm

Compartments 1 & 3 = 1585mm<sup>2</sup> (each) total area  
 Compartments 1 & 3 = 713mm<sup>2</sup> (each) 45% space factor  
 Compartment 2 = 760mm<sup>2</sup> total area (with box)  
 Compartment 2 = 342mm<sup>2</sup> 45% space factor (with box)

**Internal dimensions**  
 Compartment 1 = 128 x 61mm

#### System 170 trunking 170 x 63mm

Compartments 1 & 3 = 2812mm<sup>2</sup> (each) total area  
 Compartments 1 & 3 = 1265mm<sup>2</sup> (each) 45% space factor  
 Compartment 2 = 760mm<sup>2</sup> total area (with box)  
 Compartment 2 = 342mm<sup>2</sup> 45% space factor (with box)

**Internal dimensions**  
 Compartment 1 = 168 x 61mm

To determine cable capacity, select the size of the cable required and its corresponding cable factor from the table. Divide the compartment area figure (with or without 45% space factor) with the cable factor figure to achieve cable capacity.

Conductor type	Size	Cable factor
Stranded PVC power	1.5mm <sup>2</sup>	8.6
Stranded PVC power	2.5mm <sup>2</sup>	12.6
Stranded PVC power	4.0mm <sup>2</sup>	16.6
*Data cable	Ø5.5mm	23.8
*Data cable	Ø6.0mm	28.3
*Data cable	Ø6.5mm	33.2
*Data cable	Ø7.0mm	38.5
*Data cable	Ø8.4mm	55.4

#### Calculations

Please note that all the above calculations are based on a box depth of 30mm

# PRODUCT INDEX AND GENERAL INFORMATION

### PVC-U material data

Marshall-Tufflex cable management products are manufactured in Extra Super High Impact PVC-U grade material, capable of withstanding the most hazardous conditions on site and which exceeds the most stringent requirements of the British Standards.

Our PVC-U products are manufactured from an average of 74% recycled plastic, with some extruded products produced from 100% recycled material.

#### Characteristics

Specific gravity		1.42
Co Efficient of Linear Expansion		7 x 10 <sup>-5</sup> /m°C
Water Absorption		Negligible
Electric Strength		To the requirements of BS EN 50085
Fire Performance	BS 476 PT6 & PT7 BS EN 50085 UL94 BS EN 61386-1 BS 4607	CLASS 1 PASS V-0 @1.6mm PASS PASS
Oxygen Index		42%
Tensile Strength		492/562 kg/cm <sup>2</sup>
Insulation Resistance		To the requirements of BS 4607, BS EN 50085, BS EN 61386-1
Chemical Resistance		See below
Vicat Softening Point (conduit & trunking)		80°C BS EN ISO 306
Vicat Softening Point (moulded fittings)		76°C BS EN ISO 306

#### Chemical resistance

The material is virtually unaffected by solutions of inorganic acids, alkalis and salts and is resistant to many organic chemicals. It may be softened by some organic materials such as ketones and aromatic compounds. It will not corrode. For further details on chemical resistance to a wide range of chemicals please visit [www.marshall-tufflex.com](http://www.marshall-tufflex.com)

#### Fire resistance

The material used in Marshall-Tufflex conduit and trunking are self-extinguishing and comply with the requirements of BS 476 Parts 6 and 7 and BS 4678. Non-flame propagating to BS EN 50085 and BS EN 61386-1. (See Characteristics table above)

#### Thermal properties

Marshall-Tufflex conduit and trunking is designed to accommodate variations of ambient temperature equating to 5.25mm/3m for a temperature rise of 25°C. Operating temperatures: -5°C to +60°C. Thermal conductivity: 0.19 w/m°C.

#### Conduit Impact resistance

High impact resistance. The material is formulated to comply with the -5°C Heavy Gauge Requirements of BS EN 61386-1.

#### Standards

Trunking systems are manufactured to comply with the requirements of BS EN 50085-1:2005+A1:2013, where applicable. Conduit systems comply with the requirements of BS 4607-5:1982+A3:2010, BS EN 61386-1:2008 and BS 4607-1:1984+A2:2010.

### Polycarbonate material data

#### Chemical resistance

Polycarbonate is resistant to most mineral and organic acids, a number of fats and oils, saturated aliphatic and aromatic hydrocarbons and alcohols, with the exception of methyl alcohol. It is not resistant to alkalis, ammonia gas and its solution or to amines.

#### Characteristics

Vicat softening point – ISO 306	VST/B 145°C
Flammability to UL94 @ 1.5mm	94V-2
Flammability – oxygen index	35%
Density	1.2g/cm <sup>3</sup>
Water absorption (in water)	0.35%

### ABS high impact FR material data

Fire Retardant (FR) ABS has a good chemical resistance to inorganic salt solutions, alkalis, mineral acids (except strong oxidising acids) and some mineral, vegetable and animal based oils. It is attacked by organic solvents such as alcohols, esters, ketones and ethers.

#### Characteristics

Vicat softening point	ISO 306	96°C
Density	1.18g/cm <sup>3</sup>	
Material		UL listed
Fire performance	BS 4678 BS EN 50085 UL94	PASS PASS V-O @ 1.6mm
Water absorption (in water)	DIN53495/L	0.3%

### Aluminium material data

Grade HE9TF: Screen Insert.  
Grade 6063 T5: Bench Trunking Aluminium, XL Aluminium, Twin Plus Aluminium.  
Tensile strength: 190n/mm<sup>2</sup>  
Co Efficient of linear expansion: 24 x 10<sup>-6</sup>/m°C.  
Thermal conductivity: 120w/m°C.

## Health and Safety at work

### Health and Safety at work etc. Act 1974

1. Section 6 of this act imposes on all manufacturers, designers, importers or suppliers of articles for use at work a duty to ensure, so far as is reasonably practicable, that the article is so designed and constructed that it will be safe and without risks to health at all times when it is being set, used, cleaned or maintained by a person at work. Part 1 of the Consumer Protection Act 1987 introduces strict liability for defects in products. In considering whether a product is defective, consideration has to be given to any instructions issued with the products. It is therefore essential that the purchasers ensure that any relevant information or advice relating to the use of the product is strictly complied with.
2. Having regard to these provisions the following is given as a guide to the information which is readily available to you in order that the obligations of all concerned may be met as fully as is reasonably practicable. This information relates to those products detailed in our Catalogue(s) or associated literature.
3. Information on the design, construction and installation of our products may be found in catalogues and product leaflets of this Company, or may be obtained by specific request to the Company.
4. It is important that the products concerned should be installed, commissioned and maintained by, or under supervision of competent persons in accordance with:
  - BS7671 IEE Regulations for the Electrical Equipment of Buildings
  - Codes of Practice
  - Statutory requirements
 Any instruction specifically advised by the Company The Purchaser must satisfy himself that he has complied with such requirements.
5. In accordance with the provisions of the Act you are therefore requested to take such steps as are necessary to ensure that any appropriate information relevant to our products is made available by you to anyone concerned.

## General information

### Low Voltage Directive

Marshall-Tufflex products that come within the scope of the Low Voltage Directive (LVD) will be UKCA Marked to confirm that they meet the necessary requirements of this directive.

### Product colour

The colour of products shown in this catalogue are representative only.

**Please note:** due to different processes and materials utilised, it may not always be possible to obtain an exact colour match between the extruded and moulded product.

### Unexposed parts

Unexposed parts may not always be supplied in the colours depicted in this catalogue. This will not detract in any way from the finished look of the product.

### Conditions of Sale

All products are sold subject to Marshall-Tufflex Limited Conditions of Sale (as amended from time to time), Copies of these Conditions of Sale are available on request.

### Continuous improvement

In pursuance of our policy of continued product improvement Marshall-Tufflex reserves the right to change the design, specification or pack quantities of its products without notification.

**Range recycling figures**

(Figures based on our production usage from 1/1/20 to 31/12/20)

System	Percentage
White conduit lengths	100%
White mini and maxi trunking lengths	100%
Mono 10 trunking assembly (EPM10WH)	77%
Sterling Compact trunking assembly (EPM20WH)	58%
Sterling Curve Profile 1 trunking assembly(CEP1MWH)	66%
Sterling Curve Profile 2 trunking assembly (CEP2MWH)	60%
Odyssey trunking assembly(DD1WH)	62%
Twin Plus trunking base (EMT60WH)	55%
Cornice trunking (MCT1WH)	100%
Sovereign Plus skirting trunking (JE03WH)	100%
Bench trunking assembly (MBT105WH)	50%
Bendex white conduit lengths	98%
Bendex white mini and maxi trunking lengths	100%
Bendex Challenger System 1 trunking assembly (XT1CWH)	62%
Bendex Challenger System 2 trunking assembly (XT2CWH)	57%

**WE ARE DRIVING...**

**For all PVC-U products installed in buildings to be manufactured using 50% recycled material by 2028.**

## Perimeter and containment trunking by size

A quick reference guide to finding information on trunking, shown in size order from small to large.

### PVC-U perimeter trunking systems – by size

Dimensions	Range	Page
100 x 50mm	Mono 10	20
140 x 50mm	Sterling Compact	21
167 x 50mm	Sterling Curve Profile 1	23
167 x 50mm	Sterling Curve Profile 2	23
180 x 57mm	Odyssey	26
210 x 57mm	Twin Plus	29
220 x 65mm	XL Trunking 201	31
220 x 65mm	XL Trunking 202	31

### Specialised trunking systems – by size

Dimensions	Range	Page
50 x 50mm	Cornice	33
75 x 20mm	Sovereign Plus	34
105 x 105mm	Bench Trunking	35

### Bendex PVC-U perimeter trunking systems – by size

Dimensions	Range	Page
167 x 50mm	Challenger System 1	60
167 x 50mm	Challenger System 2	60

### Bendex Mini and Maxi trunking systems – by size

Dimensions	Range	Page
18 x 9mm	AT18 Mini Trunking	62
16 x 16mm	MT16 Mini Trunking	62
25 x 16mm	MT25 Mini Trunking	62
28 x 28mm	CT10 Maxi Trunking	64
38 x 16mm	MT38 Mini Trunking	62
38 x 25mm	MT40 Mini Trunking	62
38 x 38mm	MT40S Mini Trunking	62
50 x 50mm	CT30 Maxi Trunking	64
75 x 50mm	CT40 Maxi Trunking	64
75 x 75mm	CT50 Maxi Trunking	64
100 x 100mm	CT60 Maxi Trunking	64
100 x 50mm	CT70 Maxi Trunking	64
150 x 150mm	CT80 Maxi Trunking	64

### Mini and Maxi Trunking systems – by size

Dimensions	Range	Page
10 x 8mm	MMT00 Mini Trunking	39
18 x 9mm	MMT0 Mini Trunking	39
16 x 16mm	MMT1 Mini Trunking	39
